AMEND RULES IN REFERENCE TO DUTIES OF COM- MITTEE ON DRAWING.

By unanimous consent, Miss Burt presented the following communication in reference to the duties of the Committee on Drawing, in the matter of opening bids for supplies:

To the Gentlemen of the Board:

Your attention is hereby called to the fact that the Rules and Regulations of the Board of Education do not define with sufficient clearness the duties of the Drawing Department and of the Committee on Drawing in regard to opening bids for supplies; in consideration of which I recommend that the Committee on Judiciary, in amending the Rules, make Sections 49 and 17 to agree with each other.

Respectfully submitted,

M. E. BURT.

The communication was referred to the Committee on Judiciary.

WRITTEN EXAMINATIONS OF PUPILS OF LOWER GRADES.

Miss Burt also, by unanimous consent, presented the following communication in reference to written examinations of pupils:

To the Board of Education of the City of Chicago:
It has from time to time come to the notice of this Board that less than 20 per cent. of the children entering the first grade ever reach the eighth grade.

As nearly as I can learn from statistics furnished by the Clerk, 12,000 children leave the schools before reaching the fourth grade, 8,000 before reaching the third grade, 4,000 before reaching the second grade.

It has also come to my notice several times

that children are forced to attend school on religious holidays by teachers or Principals holding written examinations on those days. If children stay out on those days they are in danger of losing promotion.

It has frequently come to my notice that children in second, third and fourth (and even in the first) grades are subjected to written examinations;

And further, that the best writers on the science of education condemn the written examination, as related to young children, alleging that it produces nervous diseases, and drives children out of school.

It sometimes happens that a person not connected with schools, even the much abused politician, will lay hold of an underlying principle in the Science of Education, and will whack an old rusty nail on the head, that the cut and dried teacher has mistaken for an important pivot. I beg leave to call the attention of the Board to a remark from the President of the United States at the Saratoga Convention of Teachers. It is the brightest thing that has been said on the subject of education for many a day.

"Some years ago I was passing down a street in Indianapolis from my residence to my office, and on the way there was one of our public schools. The children were just gathering in the morning. As I came near the corner two sweet little girls, evidently chums, approached from different directions, and, meeting at the crossing, soon had their heads close together, but not so close but that I caught the conversation. One said to the other, "Oh, I had such an awful dream last night." Her sympathizing little fellow put her head still closer and said, "What was it?" "Oh," said the trembling little one, "I dreamed I did not pass." It is safer to allow such little ones to dream, as in my careless country boyhood I was 'wont to, about bears."

In view of these facts, I present the following petition:

That the Committee on School Management investigate and report to the Board whether or not the rule against written examinations in the lower grades is strictly enforced? How far the custom goes toward driving children out of school? Who is to blame that the practice is continued?

Respectfully submitted,

MARY E. BURT.

The communication was referred to the Committee on School Management.

SALARIES OF SPECIAL TEACHERS OF MUSIC.

Mr. Cusack called up the consideration of the report of the Committee on Music, presented at the meeting of July 6th, recommending that the salary of Ida M. Siebert, Special Teacher of Music in the Primary Grades, be advanced from \$1,200 to \$1,300 per annum; and that the salary of Martha J. Roper, Special Teacher of Music in the Grammar Grades, be advanced from \$1,400 to \$1,500 per annum.

Mr. Cusack moved to suspend temporarily so much of the Rules as provides that "all changes in salaries shall take effect from and after the date action thereon was taken by the Board," in order that the change in salary in each of the above instances may date from January 1, 1892.

The motion to suspend was lost, failing to receive the concurrent vote of a majority of the entire Board.

Yeas—Mr. Brennan, Miss Burt, Messrs. Warner, Boldenweck, Duggan, Cusack, Blunhardt, Mallette and the Vice-President—9.

Nays—Messrs. Rosenthal, Revell, Halle, Beebe and Goetz—5.

Mr. Cusack moved that the salaries of the two Special Teachers named be fixed as recommended by the Committee, change to date, in each in

stance, from the beginning of the school year, September, 1892.

Carried.

Yeas—Mr. Brennan, Miss Burt, Messrs. Rosenthal, Warner, Revell, Boldenweck, Duggan, Cusack, Halle, Beebe, Blunhardt, Goetz, Mallette and the Vice-President—14.

SELL FOUR FEET OF GROUND FRONTING ON POTOMAC AVENUE, BEING A PORTION OF THE ORIGINAL PURCHASE FOR THE NORTH-WEST DIVISION HIGH SCHOOL LOT.

Mr. Rosenthal, acting Chairman of the Committee on Buildings and Grounds, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Buildings and Grounds would respectfully report that, in the purchase of the lots now occupied by the North-West Division High School building, an ordinance of the City Council was passed vacating the alley running east and west in the rear of lots 43 to 47, fronting on Potomac Avenue, and opening a 16 ft. alley through the center of Lot 42, all in the Sub. of the W. $\frac{1}{4}$ of the N. W. $\frac{1}{4}$ of Sec. 6, T. 39, N. R. 14 E. of the 3d P. M.; that by the opening of said alley through Lot 42, a strip of ground 4 ft. wide by the full depth of the lot, 127.5 feet, is left on the east side of the new alley, disconnected from the balance of the school property. Your Committee would further report that a Mrs. Margaret Canevin, owner of Lot 41 adjoining this strip of ground, appeared before your Committee and offered to purchase the said strip of ground for the sum of \$300, that being the same price per foot paid by her for Lot 41, and which amount the Committee considers reasonable and the best price that can be obtained.

Your Committee would therefore recommend that, inasmuch as the strip of ground is of no value to the school property, being across the alley, the proposition of Mrs. Canevin be accepted, and that the President and Secretary be instructed to communicate with the City Council, and ask their concurrence in the sale of the same.

On motion of Mr. Rosenthal, the recommendation of the Committee was concurred in.

SCHOOL CENSUS OF 1892.

The Clerk presented the following communication from Mr. A. E. Frankland, Superintendent of the School Census, addressed to the Committee on School Census:

The enumeration of the entire City of Chicago shows a population of 1,428,318, subject to some slight revisions. There is still incomplete a part of Colehour, of Hegewisch, of Cummings, of Grand Crossing, of Dauphin Park, of Cheltenham and of Maplewood, which will be finished

in a few days. The above estimate, however, includes these missing districts.

The work of compilation by wards and divisions of the city, and also the preparation for the tabulated statements, will now commence.

On motion of Mr. Revell, the communication was received, and it was ordered to be placed on file.

STANDING COMMITTEES FOR YEAR 1892-93.

Mr. Cameron, Vice-President of the Board, presented a list of Standing Committees for the year 1892-93, and also Committees on School Districts, which had been received by him from the President, Mr. McLaren.

The Clerk stated that Dr. F. W. Reilly, who was appointed at the meeting of the City Council of June 20th, had not yet qualified, and consequently could not be considered a member of the Board.

Mr. Halle, Chairman of the Committee on German, presented the following substitute for Section 66 of the Rules of the Board relating to the study of German:

SECTION 66.—*Study of German.* The study of German may be commenced in the Third Grade, and be continued as a Graded Course through the remaining grades of the Course. Pupils shall not be admitted to classes in this study after the commencement of the Course, unless they are fitted to take up the Course at the point at which they propose to enter. It shall be *optional* with the parents or guardians of pupils to let their children or wards pursue the study of German in the classes of the Primary and Grammar Schools, wherein the study is taught.

There shall be a Supervisor of German and an Assistant, and such Special Teachers as may be deemed necessary, who shall be elected by a majority vote of the entire Board at the second regular meeting in June, or as soon thereafter as may be practicable, to serve for one year, unless sooner removed; but they shall be subject to removal at the pleasure of the Board, with or without cause.

The study of German shall be introduced into any Primary or Grammar School at the beginning of the School Year, upon the written request of seventy-five parents or guardians of pupils attending such school that their children may, if in the proper grades, take such study. No petitioner shall be considered as one of the required seventy-five petitioners unless the children or wards of such petitioner for whom the study is desired shall be members of grades in which the study of German is taught under the rules of the Board.

The Business Manager shall cause to be printed and distributed to all the schools a sufficient supply of the following notices, together with the accompanying request, the latter to be printed in such form as to be readily detached therefrom:

If you desire to have your child or ward take it, please bear in mind that beginners' classes are formed only in the Third Grade. Later on pupils cannot be admitted to classes in this study, unless they are sufficiently advanced to take it up at that point.

You are respectfully requested to indicate your desire in this matter by filling out the blank

.....
Clerk of Board of Education.

Chicago,.....18....

Name.....

Residence.....

It shall be the duty of every Principal of Primary and Grammar Schools to hand a copy of the above notice to all pupils entering Third Grade.

In the schools in which German has not before been taught, this notice shall be given to all the pupils of the remaining grades of the Course, as well.

The Principal of the schools shall file and preserve all such requests sent to them for said study.

And the Committee also recommended that notices to parents be printed in the English, German, Bohemian and Scandinavian languages.

Absent—Messrs. Badenoch, Chalmers, Warner, Gunderson, Cusack, Halle and Trude.

APPROVAL OF RECORDS OF PROCEEDINGS.

On motion of Mr. Brennan, the reading of the records of the proceedings of the regular meeting of August 3, 1892, of the special meeting held at 7:30 p. m. August 17, 1892, and of the regular meeting held August 17, 1892, was dispensed with, and the records thereof, as recorded, were approved.

PETITION FOR AN EVENING SCHOOL IN ANDERSEN SCHOOL BUILDING.

The Clerk presented a petition, signed by residents of the Andersen School District, asking that an Evening School be opened in the Andersen School building.

The request was referred to the Committee on School Management,

APPLICATIONS FOR POSITIONS AS ENGINEERS.

The Clerk presented communications from Joseph Dowd and Martin L. Shields, making application for positions as Engineers in some of the Public School buildings of the city.

These applications were referred to the Committee on Janitors and Supplies.

COMMUNICATION FROM BUILDERS AND TRADERS EXCHANGE IN REFERENCE TO THE MATTER OF THE AWARD OF CONTRACTS.

The Clerk presented a communication from a Committee representing the Builders and Traders Exchange and the Master Masons Association in reference to the award of contracts, in cases where the lowest bidder withdraws his bid, asking that, where there is no evidence of collusion or fraud, instead of re-advertising, the contract be awarded to the next higher bidder.

The communication was referred to a Joint Committee, consisting of the Committees on Buildings and Grounds and on Judiciary.

COMMUNICATION FROM CHICAGO KINDERGARTEN COLLEGE.

The Clerk presented the following communication, signed by the Principal and Director of the Chicago Kindergarten College:

Chicago, August 31, 1892.

To the Board of Education of the City of Chicago:

We respectfully request the Chicago Board of Education to assume the charge of the Kindergartens heretofore carried on in the Public School buildings by the Chicago Kindergarten College, viz.: the Horace Mann Kindergarten, the Raymond Kindergarten and the Haven Kindergarten.

The opening of the latter was delayed by the illness of the Director who was to have taken charge, until so near the end of the year that it was thought best to defer it until September 1st. Consequently all arrangements have been made with this expectation. The above request is made subject to the following conditions, viz.: That the teachers are not required to conduct an afternoon session; that the amount appropriated for each Kindergarten is sufficient to provide for a Director and a paid Assistant; that the number of children is limited. The above conditions are made from no desire to dictate to your Honorable Body, but because we believe them necessary for the best Kindergarten work. Satisfactory reasons for these conditions will be furnished if you desire them.

Respectfully submitted by the
CHICAGO KINDERGARTEN COLLEGE,
ELIZABETH HARRISON, Principal.
MRS. J. N. CROUSE, Director.

The matter was referred to the Committee on School Management.

COMMUNICATIONS IN REFERENCE TO THE PRINCIPAL OF THE ARNOLD SCHOOL.

The Clerk presented the following communications in reference to the matter of the dismissal of the Principal of the Arnold School:

A communication from parties who had signed an original petition asking the dismissal of Mrs. Bradford, stating their desire to withdraw their names from such petition.

Also, a communication from H. B. Bryant & Son, in reference to an article which appeared in the supplement of the "Public School Advocate," under date of August 4, 1892, purporting to give in said issue the facts in the Bradford case, and containing an advertisement of their Business College for which no authority had been granted by them.

Also, a communication from Ethel Austin, one of the teachers in the Arnold School, making explanations in reference to her testimony before the Committee on School Management.

Also, a communication in German in relation to the Bradford case.

The various communications were received and it was ordered that they be placed on file.

COMMUNICATION FROM MISS LORETTA KANE, ASKING TO BE RE-INSTITUTED AS A TEACHER.

The Clerk presented the following communication from Miss Loretta Kane:

To the Hon. Board of Education:

The undersigned most respectfully represents that during the time of her connection with the Chicago Schools, owing to circumstances not now necessary to explain, she was thoroughly imbued with the impression that she was the victim of persecution, and was fully persuaded in her own mind that the fault found with her was unjust, without cause, and simply the result of prejudice created by her enemies. She is now fully convinced of her error, and believes that had she had confidence in those about her, and received their suggestions kindly, no trouble would have arisen, and that her intercourse with her Principals would have been as satisfactory as she believes her teaching to have been. She therefore now most respectfully petitions that she be given another trial and an opportunity to redeem herself; and that the members of the Board may be assured that the granting of this

petition will be productive of no further trouble to them, she pledges herself, in case the request is granted, to resign and leave the schools, whenever the Committee of the District in which she may be employed finds her conduct unsatisfactory and informs her that her resignation is desired; and she further promises never to appeal from such decision to this Board or to any member thereof.

LORETTA N. F. KANE.

REPORT IN REFERENCE TO PRINCIPAL OF ARNOLD SCHOOL.

Mr. Brennan, Chairman of the Committee on School Management, presented the following report, together with accompanying communications from Messrs. Cusack and Trude:

To the Board of Education of the City of Chicago:

The Committee on School Management beg leave to report that they have had the petitions offered by the residents of the Arnold School district before them, and, from the evidence produced, they are of the opinion that, while all of the charges offered by the said petitioners have not been fully sustained, enough evidence has been offered to convince the Committee that Mrs. Bradford is not a fit person for the position of Principal of one of our public schools.

They therefore recommend that she be dismissed.

THOMAS BRENNAN,
 ALEXANDER H. REVELL,
 P. H. DUGGAN,

Committee on School Management.

Chicago, August 31, 1892.

HON. THOMAS BRENNAN,

Chairman Committee on School Management,

As one of the Committee who investigated Mrs. Braddie Bradford, I come to this conclusion:

That the evidence as to the brutality to several boys named by the witnesses and the evidence as to the imprisonment of boys in the alleged dungeon is not entitled, in my opinion, to much credit, but it is otherwise with the evidence of the two lady teachers, Miss Cook and Miss Skora; neither of these ladies appeared to be animated by malice or influenced by envy, but gave their evidence in a clear, clean-cut, incisive manner that carried conviction to my mind that Mrs. Bradford was unfit to occupy the position of Principal in a public school. That her treatment of her subordinate co-workers was always unladylike and frequently brutal. United with these frailties in her mental composition is the well-established fact of her using her position of teacher as an adjunct to vending merchandise. This course by her pursued would tend to impair her usefulness as a teacher, and I hereby authorize you as Chairman to sign my name to a report of our Committee recommending her dismissal for the reasons given herein. I suggest this course, as I am about to leave the City of Chicago, to be gone three or four weeks.

Courteously yours, A. S. TRUDE.

Chicago, July 30, 1892.

MR. THOS. BRENNAN,

Dear Sir:—I hereby authorize you to sign my name in accordance with the majority report of Committee on School Management yesterday in the Bradford case.

Yours truly, THOS CUSACK.

Chicago, August 27, 1892.

Mr. Beebe, member of the Committee on School Management, presented the following minority report:

To the President and Members of the Board:

The undersigned, members of the Committee on School Management, having heard and carefully considered the evidence in the case of Mrs. Bradford, Principal of the Arnold School, respectfully report that they find the charges not sustained by the evidence.

They do find, however, that Mrs. Bradford has been guilty of technical violations of the rules of the Board, of which some notice should

be taken. They therefore recommend that the petition be dismissed, and that Mrs. Bradford be cautioned to adhere strictly to the rules in the future.

They desire further to characterize the methods taken by Mrs. Bradford's enemies to manufacture sentiment against her as infamous and dastardly in the extreme.

WM. H. BEEBE,
 LUCY L. FLOWER,
 MARY E. BURT,

Committee on School Management.

Miss Burt moved that the consideration of the majority and minority reports be laid over until after the regular order of business is completed, and that, at the time of the consideration of these reports, Section 28 of the Rules of the Board, which provides that "All questions involving the conduct or the qualifications of Teachers, Officers, or Employees of the Board shall be, and, by vote of the Board other questions may be, considered with closed doors," be suspended.

Mr. Revell moved to lay the motion of Miss Burt on the table.

Lost.

Yeas—Messrs. Brennan, Revell, Boldenweck, Gunderson, Duggan, Bluthardt and Goetz—7.

Nays—Mr. Cameron, Miss Burt, Mr. Rosenthal, Mrs. Flower, Messrs. Beebe, Mallette and the President—7.

The question was then taken on the motion of Miss Burt to defer the consideration of the reports, and to suspend Section 28 of the Rules.

Lost.

Yeas—Mr. Cameron, Miss Burt, Mr. Rosenthal, Mrs. Flower, Messrs. Beebe, Mallette and the President—7.

Nays—Messrs. Brennan, Revell, Boldenweck, Gunderson, Duggan, Bluthardt and Goetz—7.

On motion of Mr. Rosenthal, duly seconded, the consideration of the majority and minority reports was deferred until the next meeting of the Board, as provided for in Section 26 of the Rules of the Board.

COMMUNICATION FROM ILLINOIS WOMAN'S ALLIANCE, ASKING FOR INFORMATION.

The Clerk presented a communication from James R. B. Van Cleave, City Clerk, enclosing a communication from the Illinois Woman's Alliance, addressed to the City Council, which had been referred to the Board of Education by the City Council for a report embracing specific answers to the questions asked, and also a general report upon the existing conditions and requirements of school buildings and school sites; the communication referred to having been presented to the City Council May 9th, and referred to the Committee on Schools, and reported back to the City Council by this Committee, recommending that it be referred to the Board of Education.

The following is the communication referred to:
Hon. Hempstead Washburne, Mayor, and the Common Council of Chicago:
Gentlemen:

We cite Section 371 of the Municipal Code, which reads: "They (the Board of Education) shall communicate to the City Council from time to time such information within their possession as may be required."

In accordance with this section, we petition your honorable body to require of the Board of Education answers to the following questions:

Why is the difference in salaries among the High School teachers based upon sex rather than merit, and always in favor of the male teachers?

Why is the Board so lax in regard to records that the latest published report that can be obtained is that of June, 1890?

Why has the Board allowed the schools to fall so far short of the requirements that there are (according to that report) 17,000 children who can attend school but half a day?

What provision has been made for the 57,000 children unprovided with school accommodations, as deduced from that report?

What is the actual sum in possession of the Board belonging to the Building Fund?

There are in the Nineteenth Ward 2579 school sittings; there are 7,000 children between 6 and 14 years of age; consequently there are, in this Ward, about 4,500 children for whom no school accommodation is provided.

As the Common Council are the creators of the Board of Education, the members being your appointees, we petition you to instruct that body to immediately provide the necessary school accommodations. This Ward needs at least four new schools, with 1,000 sittings each.

In case we are wrong in assuming that you have the necessary authority over the Board of Education, we pray that your Judiciary Committee will inform us who does possess the jurisdiction necessary to control and direct that important body.

Very respectfully,

THE ILLINOIS WOMAN'S ALLIANCE.

The matter was referred to the Committee on Judiciary.

MODIFIED COMMUNICATION FROM CHICAGO KINDERGARTEN COLLEGE.

The Clerk presented a communication from the Chicago Kindergarten College, petitioning the Board to accept the three Kindergartens under their supervision, upon the same conditions on which the Board has already accepted the Kindergartens of the Froebel Association, the Kindergartens under the control of the Chicago Kindergarten College, being located in the Horace Mann, the Raymond and the Haven School buildings.

The communication was referred to the Committee on School Management.

PROTEST AGAINST BOUNDARY LINE BETWEEN BRIGHTON AND EVERETT SCHOOL DISTRICTS.

The Clerk presented a communication, signed by voters and tax-payers in the west part of the Sixth Ward, protesting against the re-districting of the Brighton School District, as it now stands, compelling the children south of the Chicago & Alton railroad tracks to cross the tracks of said railroad in order to reach the Everett School, located corner of Yorktown and Thirty-fourth Streets, and asking that the Board re-consider their action in this matter, and make the Chicago & Alton railroad tracks the dividing line between the Brighton and Everett School Districts;

Also a communication from the General Manager's Assistant of the Chicago & Alton Railroad Company, in reference to the same matter, accompanied by a plat showing the relative location of the two buildings.

The communication was referred to the Committee on Buildings and Grounds.

At a subsequent period during the meeting, Mr. Duggan stated that a Committee from this section of the city was present, and asked that they be permitted to state their grievances to the Board.

The request was granted, and Alderman Stuckert and others addressed the Board.

Mr. Duggan moved that the prayer of the petitioners be granted, that permission be given to withdraw the petition, and that the Committee on Buildings and Grounds be discharged from the consideration of this question.

To the Board of Education of the City of Chicago:

The undersigned teachers in the Arnold School, having reason to believe that their testimony has been misunderstood, desire to state to your Honorable Body—

First. That during their association with the Arnold School, which has extended over periods ranging from one to seven years, they have never known of any case of unjust or cruel treatment of a child by Mrs. Bradford.

Second. That to the best of their knowledge and belief, the children are not afraid of Mrs. Bradford.

Third. They desire especially to call your attention to the fact that Mrs. Bradford's aim has always been not to suspend the bad boys, thus throwing them into the streets to become worse, but to try and control and keep them in school for their own good, and to this laudable desire we believe her present trouble is largely due.

Fourth. We desire to have it fully understood that we consider Mrs. Bradford a good Principal. The school has always been in excellent order, and she has, in our opinion, exercised no unnecessary harshness in managing her boys. She has some very bad, tough boys, and we have thought she controlled them exceptionally well.

Fifth. None of us is afraid to have Mrs. Bradford return, as has been stated. We, one and all, desire to have her back.

PUBLIC SCHOOL PUPILS APPEAR IN CIVIC PARADE OF OCTOBER 20TH.

Mr. Mallette presented a petition asking that the Board take under consideration the advisability of the Public School children appearing in the civic parade of October 20th, and stated that there was present a Committee to explain the matter to the Board, and moved that said Committee be granted permission to speak upon the subject.

On motion of Mr. Mallette, consent was granted.

The President introduced Mr. Meadowcraft, who addressed the Board on the subject.

On motion of Mr. Mallette, this matter was referred to the Committee on School Management, and the Superintendent of Schools, with power to act.

CORRECTION OF RECORDS OF PROCEEDINGS.

Mr. Rosenthal, Chairman of the Committee on Buildings and Grounds, called the attention of the Board to two inaccuracies in the records of the proceedings of the Board which had been overlooked, and moved that the records be corrected, in each instance, as follows:

In the records of the meeting of July 20th, page 28, a recommendation of the Committee was adopted for the purchase of one lot of ground, as an addition to the Stanwood Avenue School site, provided the same could be obtained for the sum of \$1,000.00; the report stating that this lot was located at the corner of Stanwood Avenue and Michigan Avenue, whereas it should have read "corner of Stanwood Avenue and State Street";

Also, in the records of the meeting of August 3d, page 37, the record shows that contracts were awarded for the erection of a four-room building on the site corner of Fifty-first Street and Oakley Avenue; this record should have given the location of the building as corner of Fifty-fifth Street and Blanchard Avenue.

On motion of Mr. Rosenthal, the Clerk was instructed to make these corrections in the records of the two above described meetings.

REPORT OF COMMITTEE ON COMPULSORY EDUCATION.

Mrs. Flower, Chairman of the Committee on Compulsory Education presented the following report:

To the Board of Education of the City of Chicago:

The Committee on Compulsory Education reports that the work this year has been conducted on a little different plan from heretofore, with the idea of trying to reach the real truants, or those who are not or have not been enrolled in any school. The census lists have been brought into requisition, and the names of those reported as neither at work nor attending any school—over 7,500 in number—have been given to the Agents to look up.

Of these 2631 have been visited, and 1134 are reported as having been put into the public schools; 459 into private or parochial schools; 336 could not be found and 106 are reported as incorrigible, which goes to prove the absolute necessity of a parental school here, if we do not desire to see this class of neglected children develop into criminals.

Respectfully submitted,

LUCY L. FLOWER,
P. H. DUGGAN.

On motion of Mr. Bluthardt, it was ordered that the report be published and placed on file.

REPORTS OF COMMITTEE ON BUILDINGS AND GROUNDS.

Mr. Rosenthal, Chairman of the Committee on Buildings and Grounds, presented reports of the Committee as follows, and moved that they be read by the Clerk, and if no objection is made during the reading thereof, that, at the conclusion of the reading, a vote be taken on the adoption of the recommendations contained in the several reports submitted, as a whole.

Vacate Alley Running Through Pacific School Lot and Open New Alley.

A report of the Committee, in reference to the vacation of the alley running through the Pacific School lot, as follows;

To the Board of Education of the City of Chicago:

The Committee on Buildings and Grounds reports that they have been informed that the following conditions exist in reference to the Pacific School lot, consisting of six lots fronting on Armitage Avenue, at the northwest corner of Central Park Avenue, and six lots in the rear of these lots fronting north on McLean Avenue, on the southwest corner of Central Park Avenue; that there is an alley running east and west through the block, thus dividing the school property into parts; that, in the year 1886, before annexation, the trustees of this school district voted to close that portion of the alley running east and west in the rear of the Pacific School lots, and to open a 16 ft. alley through the west portion of Lot 54, being the west lot of the frontage on McLean Avenue; that this ac-

tion of the Trustees of the School District has never been recorded, and therefore no vacation of the alley running through the school lot is shown.

Your Committee therefore recommends that the President and Secretary be instructed to communicate with the City Council, and ask that they order the vacation of so much of the eastern portion of the alley running east and west through the block as divides the two parts of the school lot, and order the opening of a 16 ft. alley through the west side of Lot 54 extending from the present alley through the west side of Lot 54 extending from the present alley to McLean Av.

will necessitate the erection of from ten to twelve school buildings each year, for some years to come, and as the cost of said school buildings amounts to from \$65,000 to \$75,000 each, the Architect's fees thereon for drawing plans and superintending same, has become a large draft upon the funds.

Therefore, Be it Resolved, That the Architect's fees for new plans and specifications of buildings shall be 2½ per cent., and when the plans and specifications of any building are dupli-

cated, the Architect's fees shall be $1\frac{1}{2}$ per cent.; it shall not be considered a new plan when a partition or two, or window, or door is changed in same, and that he shall superintend the erection of all buildings, as has been the custom heretofore; and that the Architect shall draft the plans and specifications for the heating; but shall consult the Chief Engineer regarding same, and shall receive $1\frac{1}{2}$ per cent. fees on the cost. The Chief Engineer shall superintend the construction of the heating.

Be It Further Resolved, That the Board of Education engage an Inspector, who shall be a good judge of all kinds of material, except what pertains to the heating, whose duty it shall be to visit all new buildings, at least once every three days, to see that proper material, in accordance with the specifications, is used in the construction; also to see that the contractors do their work on time, and according to contract. SATION AS TOWNSHIP TREASURER, AFTER
ANNEXATION.

Mr. Trude, Chairman of the Committee on Judiciary, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Judiciary respectfully reports that it has had under consideration a petition of Christopher G. Dowling, wherein said Dowling states that he was Township Treasurer of Township 37 North, Range 15 East of the 3rd Principal Meridian, in Cook County, Illinois, prior to annexation of Hyde Park to the City of Chicago, and that there is a balance remaining in his hands, as such Treasurer, of the sum of \$332.67, and that he claims to be entitled to his salary, as such Treasurer, from August 22, 1889, to April 22, 1890; that his term of office expired on April 22, 1890; that he received his salary as such Treasurer up to August 22, 1889, and asks that he may be allowed to apply the said balance of \$332.67 toward the payment of the salary due him, and that the Board of Education pay him a further sum of \$300.61, in full settlement of all his claims for salary.

Your Committee further reports that, in its opinion, the said Dowling is not entitled to receive any salary as Township Treasurer from and after the date of the annexation of Hyde Park to the City of Chicago, and that said Dowling should be required to turn over to the Treasurer of the Board of Education the said sum of \$332.67.

Your Committee recommends that the Auditor

of the Board be instructed to make a demand upon Mr. Dowling for the said sum of \$332.67, and in case of his failure to pay the sum within a reasonable time, that the Attorney of the Board be instructed to take the necessary steps for the collection of said sum of \$332.67 from said Christopher G. Dowling, or the sureties upon his bond as Township Treasurer, as aforesaid.

To the Board of Education of the City of Chicago:

Your Joint Committee, consisting of the Committee on Janitors and Supplies and the Committee on Judiciary, respectfully reports that it has had under consideration the case of Thomas Burns, a teamster who was thrown from his wagon and seriously injured while driving a load of coal from the Washburne School lot; that the circumstances under which said accident occurred are fully set forth in the report of Frank L. Burdick, Inspector, which said report is hereto attached; and that after a full investigation of the matter, your Joint Committee is of the opinion that the accident was not due to the negligence of either Thomas Burns or the employees of this Board.

Your Committee further reports that the injury sustained by the said Thomas Burns is of a serious character, and will prevent said Thomas Burns from pursuing his usual employment for at least six months, and may result in his permanent disability; that the said Thomas Burns and his family are in indigent circumstances, and without means for providing proper medical attendance and care to enable him to recover from his said injury.

Your Committee therefore recommends that the sum of six hundred dollars be appropriated by this Board, to be expended in paying for the expense incurred by the said Thomas Burns on account of his said injury, and in compensating him for his loss of wages for the time during which he is incapacitated; that said sum of six hundred dollars be paid out at such times and to such persons as the Committee on Janitors and Supplies may direct, but that no part of said sum be expended until the said Thomas Burns or his legal representatives shall have executed a proper written waiver or release of all claims against this Board and the City of Chicago on account of the said accident.

AND T. 37, R. 14.

Mr. Trude, Chairman of the Committee on Judiciary, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Judiciary respectfully reports that its attention has been called to the fact that the trustees of Township 40, Range 13, and Township 37, Range 14, in Cook County, Illinois, still hold the township funds belonging to said townships; that, by the terms of the law

BOARD OF EDUCATION.

REGULAR MEETING.

OFFICIAL REPORT.

Chicago, January 4, 1893.

The President, Mr. John McLaren, took the chair, and the meeting being called to order, there were then

Present—Mr. Brennan, Miss Burt, Messrs. Rosenthal, Warner, Mrs. Flower, Messrs. Boldenweck, Duggan, Cusack, Halle, Beebe, Bluthardt, Mallette, Trude, Preston, Stanford and the President.

On motion of Mr. Mallette, the reading of the record of the proceedings of the regular meeting held December 21, 1892, was dispensed with, and the record thereof, as recorded, was approved.

INSTRUCTION OF CADETS.

Mr. Brennan offered the following resolution:

In order that our Cadets may have a wider experience and a better knowledge of their work as Teachers, before being employed as such,

Resolved—First, That there be established for Cadets a six months' course of instruction in methods of teaching;

Second, That a special teacher be employed to give such instruction in the assembly room of the Board of Education.

The resolution was referred to the Committee on School Management.

In this same connection, Mrs. Flower presented the following:

WHEREAS, It is of the greatest importance that the Primary Grades of our schools should have the very best teachers possible, as in them all the instruction of seventy-five per cent. of the children is obtained; and

WHEREAS, The Superintendent is compelled to assign to the first and second years of this grade all young and inexperienced teachers, for the reason that said young teachers are utterly unable to control older children; and

WHEREAS, It is well known that teachers are admitted to the Chicago Public Schools without special training for their work, such as is given in other cities, like Boston, St. Louis, New York, Washington, etc., which provide for the thorough preparation of their teachers by requiring a two years Normal Course in addition to the High School Course;

Therefore, Resolved, That it is the sentiment of this Board that more opportunity of fitting themselves for the profession of teaching should be provided for our teachers; and that the Superintendent be requested to report, within two months, the practicability of adding one year's

Normal training to the course in some High School, and requiring those desirous of teaching, to avail themselves of said course.

This resolution was also referred to the Committee on School Management.

Messrs. Revell and Badenoch entered the room and took their seats.

APPLICATION FOR POSITION AS JANITOR.

The Clerk presented a communication, signed by property-owners and residents in the vicinity of the school building now in course of erection corner of 72d Street and Ellis Avenue, asking the appointment of George Stalzal to the position of Janitor of said building.

The communication was referred to the Committee on Janitors and Supplies.

USE OF APPROPRIATION MADE BY CITY COUNCIL FOR INSTRUCTION OF THE BLIND.

The Clerk presented the following communication, addressed to the President of the Board:

HON. JOHN McLAREN,

President of the Board of Education,

Dear Sir: I would respectfully call your attention to the fact that it is almost a year since the appropriation of fifty thousand dollars (\$50,000) was added to the School Fund for a mental and manual training school for the blind of Chicago, and request that at the next meeting of that Honorable Body, the question of erecting a school building for that purpose receive their immediate attention.

It is a great injustice to the sightless ones to be deprived of the benefits of public schools; in the United States, and in no other country, the Government furnishes free all books for the use of the schools for the blind. Would also ask that a record be kept of all children turned away from the Public Schools on account of defective eyesight.

The books of the Lending Library show the names of over five hundred (500) blind persons of all ages.

The School Census shows the names of only two hundred and thirty-one (231) of all ages. The reason for this difference being the fact that parents dislike to give the names of their sightless little ones to the School Census collectors, as they fear the children might be taken from them and sent to an institution.

Hoping this serious question will receive your immediate attention, I am, respectfully yours,

MRS. EDWARD PATSON SAMSON.

The communication was referred to the Committee on School Management.

LIKENESS OF JOHN CRERAR.

The Clerk presented a communication from the executors and trustees of the estate of John Crerar, deceased, requesting the acceptance of a likeness of Mr. John Crerar, in the hope that it may be hung in the school building bearing his name.

The communication was received, and the matter of placing the likeness in the John Crerar School building was referred to the Committee on School District No. 4.

Mr. Gunderson entered the room and took his seat.

CLOTHING STOLEN FROM SOUTH DIVISION HIGH SCHOOL BUILDING.

The Clerk presented a communication from Thomas J. Sutherland, accompanied by a bill, in the sum of \$23 50, for sundry articles of clothing belonging to his son Robert, which, it is alleged, were taken from one of the dressing-rooms of the South Division High School building, and asking that the Board refund him this amount.

The matter was referred to the Committee on Judiciary.

PROTEST AGAINST AWARD OF CONTRACT FOR FURNISHING SEATS AND DESKS FOR 1893.

The Clerk presented the following protest in the matter of the award of the contract for seats and desks for use in the Chicago Public Schools, during the year 1893, to wit:

To the Officers and Members of the Board of Education:

GENTLEMEN: The undersigned, representing many thousand citizens and tax-payers of the City of Chicago, hereby enter their emphatic protest against awarding of the contract for the supplying of school furniture to the United States School Furniture Company, for the following reasons:

First.—The present bid is more than 50 cents per desk higher than what was paid twelve months ago. This represents a loss of over \$10,000 a year on the contract alone.

Second.—The United States School Furniture Company, to which the contract is about to be let, is known to be a trust or combination, and its existence is in violation of the statutes of the State of Illinois and the laws of the general government, as well opposed to all principles of right and equity.

Third.—The desk selected has been demonstrated to be unsatisfactory to a large number of the voters and tax-payers of Chicago, because of methods pursued in its manufacture.

Fourth.—The publication of the time of letting the contract was not given sufficient publicity to reach parties interested; therefore many manufacturers have been unable to compete for this work. Thousands of dollars could be saved your honorable body, and much better supplies obtained, by re-considering said award.

Fifth.—In view of the fact that the contract was not let to the lowest bidder, criticism on the part of the press and tax-payers has been aroused in consequence thereof, and your petitioners ask for a re-consideration of said award on the grounds above set forth.

Sixth.—The specifications under which the award is about to be let do not require a satis-

factory guarantee as to quality or workmanship, beyond acceptance of goods, while other competitors guarantee to replace defective goods for a period of years. This item alone means the saving of many thousands of dollars yearly.

Seventh.—The desk selected is known to be an infringement on patents held by outside or independent manufacturers, and litigation, with its attendant cost, will be entailed upon the city for royalties.

Eighth.—We appeal to you, as business men representing the interests of the tax-payers of this city, to repress the formation of trusts and combines, which not only stifle healthy competition, but cause inferior goods to be substituted for superior at a much higher figure.

Coming, as this appeal does, from citizens and tax-payers, your petitioners have confidence that your honorable body will give this protest due and sufficient consideration.

SECTION 33.—General Duties of the Architect.—The Architect shall be a Superintendent of Construction for the Board. He shall provide necessary plans and specifications and working drawings, with the proper tracings for all buildings of whatever kind, to be erected by the Board, or whose erection is under consideration by the Board, and also for any repairs which shall be ordered to be made by the Board, all such plans, specifications, etc., to be the exclusive property of the Board, and to be ultimately preserved in the office of the building department. He shall be provided with a suitable room or rooms, and with all the necessary materials, furniture, etc. He shall keep certain office hours at the office furnished him, such hours not to be less than two each day, at which hours he shall be in constant attendance. He shall attend all meetings of the Committee on Buildings and Grounds. The Architect shall superintend the construction of all the buildings in course of erection, and all repairs to buildings as may be ordered by the Board. Proper books relating to all matters in his charge shall be kept, and he shall report to the President and to the Committee on Buildings and Grounds, at its first meeting each month, and as often as requested by such Committee, as to the progress of all the work in his department, such reports to be transmitted by the Committee on Buildings and Grounds to the Board. The Board shall employ, on the advice of the Architect, and the Committee on Buildings and Grounds, as many competent draughtsmen and inspectors of buildings as shall be necessary for the proper conduct of the building department. The salaries of such employees to be fixed, and they shall be elected at the same time as other employees.

He shall require of all contractors and mechanics employed in connection with work which is under his charge or superintendence the full and faithful performance of their respective contracts.

He shall certify to all estimates for work done or for materials furnished upon buildings in process of erection, or upon repairs made under his charge or superintendence, and he shall be

held personally responsible to the Board that all work and materials certified by him for payment are such as the contracts require. He shall perform such other duties properly pertaining to his office as the Board may require.

He shall be paid for his services such compensation as may be directed by a majority vote of the whole Board, and if at any time it shall be necessary for the Board to divide such compensation between two or more Architects, such division shall be upon the following basis, viz.: One-half of said compensation shall be paid for preparing plans, specifications and working drawings, and one-half for the work of superintending the construction of the buildings, it being understood if at the time of such division of compensation the building or buildings is or are not wholly completed, then, in such cases, the division of the portion of the Architect's compensation allowed for superintendence, shall be based upon the work completed at the time, the same to be determined by the Board.

He shall, as soon as practicable after his election, and before he has qualified, be informed of the amount of compensation to be paid him for his services.

He shall furnish annually, within ten days after his fees are determined upon, a satisfactory bond, to be approved by the Board, in the sum of Ten Thousand Dollars, for the faithful performance of his duties.

The amendment was referred to a Joint Committee, consisting of the Committees on Judiciary and on Buildings and Grounds.

"*And they further recommend that there be purchased, for present use, fifty copies of this chart, at a cost not to exceed \$37.50 per copy.*"

The amendment was adopted.

VACATE ALLEY ON LAKE VIEW NO. 7 SCHOOL LOT.

The Committee therefore recommended that the President and Secretary be instructed to communicate with the City Council, and ask that they order the vacation of that portion of the alley running north and south in this block, which divides the school lot into two parts, and that there be opened, in place thereof, a sixteen foot alley running east and west across the north 16 feet of Lots 22 and 35 of said block.

Total number in other schools.....	1,417	
Total number not entered school as reported.....	900	4,993

The Agents are now at work investigating those "reported in school," and found by verification as "not entered"; also endeavoring to find those from other causes if able to attend school at this term.

During this term there have been 439 permits to work granted on good and sufficient reasons, the same having been found, after investigation, to be worthy, or in other words, that their necessities were such they must either work or starve. Among this number are 117 who work at the Fair, and receive two hours education daily throughout the year. I am endeavoring to have similar schools inaugurated by other mercantile houses in this city.

The reports of Mrs. Owens, Special Officer, show that over 300 children have been taken out of stores, shops and factories and returned to school, in accordance with municipal law on Child Labor.

There are about 250 children in various schools, the enlistment of whom was prepared by Agents and delivered to Principals, but up to this time no report whatever has been received at this office.

The Destitute Aid Committee of Women's Club have been doing extra good work this session, having been enabled to do so by liberal assistance received from the public. Their report has not yet reached this office, so that the number relieved cannot yet be stated.

All verifications of these figures are on file in this office, and the attention of the Committee is called to them.

During the discussion of this question, the point of order being raised as to Mr. Trude having reached his limit of time, on motion of Mr. Cusack, his time was extended five minutes.

The motion to re-consider was carried.

On motion of Mr. Trude, the report was re-committed to the Committee on Drawing.

REQUEST STATE LEGISLATURE TO PROVIDE FOR MANUAL TRAINING IN REFORMATORY SCHOOLS.

Mr. Gunderson presented the following resolution:

WHEREAS, In large cities, children are oftentimes led astray by bad associates and from improper governing of the parents or guardians, and led to commit crime, and as a consequence are brought before a magistrate, who in most cases sends them to the Reformatory Schools of the State, and when they return from the Reformatory Schools, they are but little better, if any, from lack of proper teaching and manual training, to which the mind of the child could be attracted by proper care and instruction, at the Reformatory Schools, and would make good citizens when returned from there,

Now, therefore, be it Resolved, That the Board of Education ask the Governor and the members of both Houses to see that provision is made for a manual training school, at the reformatory schools, similar to those of Chicago or other large cities.

On motion of Mr. Badenoch, the resolutions were referred to a Joint Committee, consisting of the Committees on School Management and on Judiciary, with instructions to draft a proper form, the same, when prepared, to be transmitted to the Governor and to the two Houses.

Yeas—Messrs. Cameron, Badenoch, Rosenthal, Warner, Boldenweck, Duggan, Cusack, Halle, Beebe and Goetz—10.

Nays—Mr. Brenan, Miss Burt, Mrs. Flower, Messrs. Gunderson, Bluthardt, Trude, Stanford and the President—8.

On motion of Mr. Cameron, the Board adjourned.

SHEPHERD JOHNSTON,
Clerk.

AMENDMENT TO SECTION 33 OF THE RULES OF THE BOARD, IN THE MATTER OF THE EMPLOYMENT AND DUTIES OF THE ARCHITECT.

Under the matter of unfinished business, the report of the Joint Committee, consisting of the Committees on Buildings and Grounds and on Judiciary, presented at the last meeting of the Board, in reference to the employment of an Architect and of assistants, and their duties, was taken up, as well as the substitute submitted at the same meeting by Mr. Gunderson.

Mr. Rosenthal moved the adoption of the report of the Joint Committee.

Mr. Gunderson moved to substitute the resolution offered by him in reference to this matter for the report of the Joint Committee.

During the discussion of this question, Messrs. Preston and Brenan entered the room and took their seats.

After further discussion, Mr. Boldenweck moved the previous question.

The question being taken—"Shall the main question be now put?"—it was carried.

The question was first taken on the substitution of the resolution submitted by Mr. Gunderson for the report of the Joint Committee, which resolution provides that

"The Architect's fees for new plans and specifications of buildings shall be 2½ per cent., and when the plans and specifications of any building are duplicated, the Architect's fees shall be 1½ per cent.; it shall not be considered a new plan when a partition or two, or window, or door is changed in same, and that he shall superintend the erection of all buildings, as has been the custom heretofore; and that the Architect shall draft the plans and specifications for the heating, but shall consult the Chief Engineer regarding the same, and shall receive 1½ per cent fees on the cost. The Chief Engineer shall superintend the construction of the heating."

The motion to substitute the resolution offered by Mr. Gunderson for the report of the Joint Committee was lost by the following vote:

Yeas.—Messrs. Brenan, Cameron, Badenoch, Mrs. Flower, Messrs. Gunderson, Duggan, Cusack, Trude and the President—9.

Nays.—Miss Burt, Messrs. Rosenthal, Warner, Revell, Boldenweck, Halle, Bluthardt, Goetz, Mallette, Preston and Stanford—11.

The question was then taken on the adoption of the report of the Joint Committee, which provides—

Section 33.—General Duties of the Architect.

The Architect shall be a Superintendent of Construction for the Board. He shall provide necessary plans, details, specifications and working drawings, with the proper tracings and blue prints for all buildings, and additions to buildings, of whatever kind to be erected by the Board, or whose erection is under consideration by the Board, and also for any repairs which shall be ordered to be made by the Board, all such plans, specifications, etc., to be the exclusive property of the Board, and to be ultimately preserved in the office of the building department. He shall be provided with a suitable room or rooms, and with all the necessary materials, furniture, etc. He shall keep certain office hours at the office furnished him, such hours not to be less than two each day, at which hours he shall be in constant attendance. He shall attend all meetings of the Committee on Buildings and Grounds. The Architect shall superintend the construction of all the buildings and additions to buildings in course of erection, and all repairs to buildings as may be ordered by the Board. Proper books relating to all matters in his charge shall be kept, and he shall report to the President and to the Committee on Buildings and Grounds at its first meeting each month, and as often as requested by the President or such Committee, as to the progress of all the work in his department, such reports to be transmitted by the Committee on Buildings and Grounds to the Board. The Board shall employ as many competent draftsmen and inspectors of buildings as shall be necessary for the proper conduct of the Building Department. Such employees to be first selected and recommended by the Architect to the Committee on Buildings and Grounds, and then to be confirmed by a majority of the Board, and in case of failure to confirm any such employee, the Architect shall select and report in the same manner some other employee in place thereof, until such employees shall be confirmed by the Board. The amount of salary to be paid the Architect and other employees of the Building Department, shall be recommended by the Committee on Buildings and Grounds, and fixed by the Board, and the said Architect and employees of said Department shall be elected, and their salaries fixed at the first meeting of the Board in December of each year. He shall require of all contractors and mechanics employed in connection with work which is under his charge or superintendence, the full and faithful performance of their respective contracts.

He shall certify to all estimates for work done or for materials furnished upon buildings and additions in process of erection, or upon repairs made under his charge or superintendence, and

he shall be held personally responsible to the Board that all work and materials certified by him for payment, are such as the contracts require. He shall perform such other duties properly pertaining to his office as the Board may require.

He shall as soon as practicable after his election and before he has qualified, be informed of the amount of compensation to be paid him for his services.

He shall furnish annually, within ten days after his salary is determined upon, a satisfactory bond to be approved by the Board, in the sum of Twenty Thousand Dollars for the faithful performance of his duties.

The said Committees would further recommend that all other sections of the Rules in conflict with foregoing amendment be amended so as to harmonize herewith.

The above report was adopted by the following vote:

Yeas—Miss Burt, Messrs. Rosenthal, Warner, Mrs. Flower, Messrs. Revell, Boldenweck, Halle, Bluthardt, Goetz, Mallette, Preston and Stanford—12.

Modification in Award of Contract for Calcimin-ing at Goodrich School Building.

A report of the Committee stating that, at the meeting held December 21, 1892, a contract for calcimining at the Goodrich School building was awarded to A. G. McAfee, for the sum of \$500.00; that the Committee found, however, that there was an error in scheduling the bids and that the amount should have been \$600.00 instead of \$500.00;

The Committee therefore recommended that this correction be made in the amount of the contract, said McAfee having been the lowest bidder.

That the above work was not done by Thos. SETTLEMENT OF SUNDRY ORDERS ISSUED BY THE TRUSTEES OF DIST. NO. 5, T. 38, R. 13.

Mr. Trude, Chairman of the Committee on Judiciary, presented the following report, in reference to settlement of sundry orders issued by the Trustees of School District No. 5, T. 38, R. 13, prior to annexation:

To the Board of Education of the City of Chicago:

Your Committee on Judiciary respectfully reports that it has had under consideration the matters involved in the case of Roberts vs. the Board of Education, No. 85,921, in the Circuit Court of Cook County, Illinois, and finds that the plaintiff's claim in said case is based upon five orders issued by the Trustees of District No. 5, T. 38, R. 13, in Cook County, Illinois, said orders being numbered respectively 185, 186, 190, 191, and one order which bears no number; that that said order No. 185, dated June 15, 1889, was issued to James A. Douglas, for taking School census, amounting to \$25.00; that Mr Douglass actually rendered the service in payment for which said order was issued, as has been shown to your Committee by the testimony of the Superintendent of Schools and the Principal of the Doran School, in said district; that said orders Nos. 186, 190 and 191, aggregating the sum of \$801.50, were issued to one William Richardson, in payment for labor and materials furnished in

calclmining, plastering, slating, patching and painting the Doran School building.

Your Committee further reports that it has caused an estimate to be made by the Business Manager of the actual amount of work done by Mr. Richardson, and covered by the orders issued to him, and that the value of said work, estimated upon the basis of current prices, amounts to the sum of \$417.07; that said estimate was made by J. J. Magrady, Assistant to the Business Manager, who was assisted by the Principal of the Doran School and the Janitor of said School, who occupied their respective positions in said School at the time the said work was done.

Your Committee further reports that the order which bears no date was originally dated July 2, 1884, but that the date thereof appears to have been altered so as to read July 2, 1889;

And your Committee further recommends that the payment of this order, amounting to \$70.40, be refused.

Your Committee further reports that a proposition has been received from the attorneys of the plaintiff, in the case of Roberts vs. the Board of Education, offering to accept the sum of \$495.11, in full settlement of the claims of the plaintiff; that the said sum of \$495.11 is arrived at as a basis of settlement by accepting the estimate of the Business Manager of the labor and materials furnished by William Richardson, amounting to the sum of \$417.07, and in addition thereto the amount of the Douglas order, for taking school census, amounting to \$25.00, and interest for two years, being one-half of the time that said claims have remained unpaid, amounting to \$53.04, making a total of \$495.11.

Your Committee therefore recommends that the proposition for the settlement of this case, for the sum of \$495.11 be accepted, and that a voucher be drawn for that amount, to be paid at such time as the Attorney of the Board shall advise that the Board is fully protected from the claim upon which said suit is brought.

In making this recommendation, your Committee is of the opinion that said settlement is an advantageous one for this Board to make, being about fifty per cent. of the amount of the claims.

On motion of Mr. Revell, it was ordered that this report be published, and that the consideration thereof be deferred.

At a subsequent period during the meeting, Mr. Revell withdrew his objection to action being taken on this report, and moved that the recommendations of the Committee be concurred in, and that settlement be made in accordance with such recommendations.

REFUSAL OF PAYMENT OF ORDERS HELD BY KEELEY BREWING CO.

Mr. Trude, Chairman of the Committee on Judiciary, presented a report of the Committee stating that they had had under consideration a communication from the Keeley Brewing Company, dated August 30, 1892, wherein said Company asked the Board to pay certain school orders issued by the Board of Education of Districts Nos. 4 and 5, in Township 38, Range 13, Cook County, Illinois, prior to the annexation of said Districts to the City of Chicago;

And further reporting that an opportunity had been offered to the Keeley Brewing Company to furnish evidence showing that the labor and materials, in payment for which the said orders purport to have been issued, were actually furnished to said Districts, and that the amount of said

orders was a suitable and reasonable compensation for such labor; but that the said Company had furnished no evidence whatever in regard to the said orders, and that the Committee was unable to determine whether or not said orders constituted valid claims upon the Board.

The Committee therefore recommended that the request of the Keeley Brewing Company, for the payment of said orders, be refused.

On motion of Mr. Trude, the recommendation of the Committee was concurred in.

TAX TITLE AGAINST PORTION OF OAK STREET SCHOOL LOT.

Mr. Trude, Chairman of the Committee on Judiciary, presented a report of the Committee stating that they had had under consideration a communication from John Carne, Jr., addressed to the President of the Board, dated August 18, 1892, relating to the tax title held by said Carne upon a portion of the Oak Street School lot; that the Committee found that the portion of said school lot covered by tax deed to said John Carne, Jr., was sold for taxes of 1879, which were a lien upon said property before the purchase thereof by the City of Chicago in trust for the use of schools;

That the Committee therefore recommended that the Auditor of the Board be instructed to negotiate with the said John Carne, Jr., and obtain a proposition from him with a view to the purchase by this Board of the interest now held by the said Carne in said Oak Street School lot.

On motion of Mr. Trude, the recommendation of the Committee was concurred in.

Barrett, upon payment of the above sum, together with the addition of \$7.76, as interest at six per cent., making a total amount of \$81.79;

And that the Committee recommended that a voucher be issued in favor of George D. Barrett, for said amount of \$81.79, and that the Auditor be instructed to have the certificates cancelled on the books of the County Clerk.

On motion of Mr. Revell, the recommendations of the Committee were concurred in, and it was ordered that a voucher be issued in favor of George D. Barrett, in the sum of \$81.79, and that the Auditor be instructed to have the certificates cancelled on the books of the County Clerk.

PETITION GOVERNOR OF THE STATE AND MEMBERS OF THE LEGISLATURE TO PROVIDE A HOME OF CONTROL FOR CHILDREN LEADING A WAYWARD LIFE AND ASSOCIATING WITH BAD COMPANY.

Mr. Gunderson presented the following preamble and resolutions, and moved their adoption:

WHEREAS, Urgent appeals have been made by parents and guardians to the Truant Officers of the Board of Education, and to said Board, as to what could be done with their children who would not attend school, but who were continually leading a wayward life, and associating with bad company; and

WHEREAS, This Board and said Truant Officers have been compelled to reply that they have no remedy, as the State did not provide any relief or remedy, except for children who had committed crimes; and

WHEREAS, The same appeal has been made to the Police authorities and Police Justices who have been forced to make the same reply; and

WHEREAS, The State of Illinois has made no provision for the control of such children as the parents and guardians cannot control;

Now, Therefore, Be It Resolved, That we believe that for the good of such parents, guardians, children, society and good citizenship, the State should provide a home of control where these wayward children might be sent and given an education and manual training, which would make them good citizens and return them to society without a taint on their characters;

Therefore Resolved, That we, the Board of Education of the City of Chicago respectfully petition the Governor and the members of both houses of the Legislature that the State of Illinois by law provide a home for such children, where such children may be sent upon the appeal of said parents or guardians to the proper authorities provided for in such law, upon satisfactory evidence, and such as shall be provided for by such law in order that the crime, ignorance and vice may diminish among the children of this State.

On motion of Mr. Gunderson, the subject matter was referred to a Joint Committee, consisting of the Committees on School Management and on Judiciary.

On motion of Mr. Brennan, the Board adjourned.

BURKE SMOKE CONSUMER.

The following report was submitted by the Committee in reference to the Burke Smoke Consumer.

To the Board of Education of the City of Chicago:

Your Committee on Buildings and Grounds would respectfully report that considerable difficulty has been experienced in properly heating and ventilating the school buildings where the Burke furnace is used in connection with the steam boilers. It has been clearly demonstrated that the buildings can be properly heated and ventilated if the boilers are equipped with the ordinary setting.

Your Committee would therefore respectfully recommend that James V. Burke, the contractor, be requested to remove his furnaces from the following named school buildings, in such manner and at a time that will not interfere with the regular school work: Holden, Van Vlissingen, John Ericsson, Burroughs and Greenwood Av.

Your Committee would further recommend that authority be granted to instruct the Chief Engineer to have the boilers in said buildings equipped with the ordinary setting, a steam jet attachment furnished, and also to have the cement floors repaired in front of boilers where the present furnaces are located.

Total Estimate for 1893..... \$6,322,500 00

GEO. L. WARNER,
THOMAS BRENNAN,
E. G. HALLE,

Committee on Finance.

On motion of Mr. Halle, the estimates presented by the Committee were adopted by the Board.

In connection with this report, the Committee submitted the following communication to the City Comptroller to accompany the Estimates of the Board:

HON. HORATIO N. MAY,

City Comptroller, Chicago, Illinois.

Dear Sir:—In submitting for your favorable consideration the estimates of the needs of the Public School system of the City of Chicago for the year 1894, the basis of the estimates has been made on a full and careful consideration of the expenditures of the past year. You will notice that the increase asked is only \$300,000 more than the amount asked for a year ago. During the current year it is fully expected that twenty new school buildings will be opened. The Board believes that for the best interest of the schools it will not be possible to get along with a less amount than that asked.

We earnestly hope that, in your report to the Hon. City Council, you will recommend the entire amount as per the estimate submitted.

Very respectfully,

JOHN McLAREN, Pres't.

The Clerk presented a communication, signed by residents of Hyde Park, stating that on the evening of February 12th, at a meeting of the Hyde Park Protective Association, at South Park, attended by more than fifty members of the Branch, much indignation was aroused by the presentation of the fact that two cheap one-story stores had been erected just east of and adjoining the Jackson Park School lot, and that a sign had been placed conspicuously in front offering the stores for rent for saloon purposes; that this location is just outside of the prohibitory district, and there is already adjacent to these stores a hotel having a beer saloon in the basement, and that probably licenses would be obtained for saloons in these stores unless some action is taken by the Board of Education, and asking that the Board take suitable action to prevent the location of saloons at this point.

Carried.

Mr. Goldzier was then invited to present the matter to the Board, who, after a few introductory remarks, presented the following remonstrance on the general subject of Special Studies:

To the Honorable the Board of Education of the City of Chicago:

The German-American citizens of Chicago, numbering over one-third of the population of this city, have learned with regret that a proposition is pending before your honorable body, having for its object the abolition of the so-called special studies, namely: the study of the German language, physical culture, music, drawing and modeling, in our Public Schools.

The undersigned Committee, selected by a meeting of representatives of well-known German-American organizations, desires respectfully and earnestly to present and enter a remonstrance to the action thus proposed.

In so doing we address your honorable body, not as a distinct class of the population which desires special and exceptional privileges, not enjoyed by others, but we submit to you our views as those of a large, law-abiding and industrious part of the community, as the views of citizens and tax-payers to whom the welfare of our city and of the coming generation is near at heart.

The proposition referred to, in our humble opinion, is dangerous in the extreme and inimical to the best interests of our Public School system.

If carried into effect, it would tend to deprive instruction in our schools, in a large measure, of those things which make study attractive and interesting to the pupil, and which in so doing leave the minds of our children fresher and better prepared for the reception of that instruction

which has reference only to the practical side of life.

It is an old but true adage that "all work and no play makes Jack a dull boy," and the special studies in our schools, by relieving the monotony of mere book learning, by stimulating the faculties and the inventive genius of the young mind, prevent that result.

The objection is made to the instruction in German, that a thorough English education is vital to the future citizen of this country, and that the time spent upon the study of a foreign language is detracted from that which should be spent upon the mother tongue.

To meet this objection, it is but necessary to point to the opinions of the great pedagogues of all ages—who agree that the knowledge of a foreign language is necessary in order to fully understand your own.

In urging upon you the retention of this study, the German-American citizens are not solely moved by the desire of giving to their offspring such an education as will enable them to understand and enjoy the products of the master minds of Germany, nor is the practical value of a knowledge of that language, in view of our intimate relations with people of that tongue, advanced as the main reason; but we believe that our children can be brought to a better appreciation of, and higher perfection in, the language of our common country by familiarizing them with that idiom in which the roots of the English language can be traced and found.

Concerning the practice of physical culture, that branch has of late years been considered as essential and proper common school education in almost all civilized countries of the world. As a common school study, it embodies the principle that the commonwealth has as much interest in the physical development of the future citizen as in his mental training.

"Mens sana in corpore sano" is an axiom which has come down to us through generations, and it is of as great importance in the busy, rushing, crushing present as it was in the time of past Greek and Roman civilization.

No thorough, systematic, healthful training of the mind can take place, unless the vigor of body acquired by properly regulated exercise is also provided for.

In speaking of the instruction in singing, we submit to you that this is a vital element in the instruction of youth, and deserves well the fostering care of those to whom the management of our schools is entrusted.

It may be that those who look with scorn upon every ideal impulse, and who attempt to reduce every human instinct and emotion to their own narrow dollar-and-cent level, may oppose musical instruction and may deem the time spent upon it as wasted, because it brings no tangible benefit to the pupil.

The educator, he in charge of the schools of the people, cannot assume that position.

He must know and perceive the elevating and ennobling influence of music upon the child, must know that without it a great moral factor in education is wanting.

Tributes innumerable have been paid to this influence of music by great writers and thinkers of all ages, and no stronger argument can be advanced in favor of nursing the musical instinct in the breast of the child, than that which Shakespeare penned centuries ago: "The man that hath no music in himself, is fit for treason, stratagem and spoils."

We urge upon you that, viewed from every standpoint, some musical education is proper in our public schools, and that singing as now taught should not be discarded.

As to drawing and modeling, we believe that even those who want to confine instruction in our schools solely to those branches as are necessary in the future life of the pupil, should find no objection to the teaching of these arts. Or will the opponents of "special studies" contend

that these rudiments of manual training are less necessary to the future artisan, engineer and mechanic, than is arithmetic to the future merchant?

Is it contended that our country has less need of men and women pursuing these vocations than of those following mercantile pursuits?

The value of these studies cannot be underestimated. While in the nature of things it is not possible in common schools to provide thorough instruction in these arts, the stimulus given by acquainting pupils with first principles has certainly brought to the surface many a talent which would otherwise have remained dormant.

We represent to you that all of the studies which we have mentioned have for years been recognized as being within the proper sphere of common school education, and that the tendency of this age is that of broadening the scope of popular education rather than of contracting it.

It must be borne in mind by you, the chosen guardians of our public school system, that while the children of the wealthy may acquire in after-years that in which common school education is deficient, the public school is pre-eminently the school of the common people, and that the vast majority of all pupils end their education with the end of their terms in these schools.

We consider it as the duty of the appointed protectors of our school system to provide for the mass of the people, not a scant education, instruction in those branches which may be deemed necessary for the immediate bread-winning, but a liberal one. We think that the time when a knowledge of the renowned three "R's" was considered a sufficient education has passed, and we believe that the children of this generation are entitled in the schools of the people to all instruction necessary for their future career, and to all such instruction as tends to make better men of them.

We think that instruction in our public schools should be so ample as to dispense absolutely with the necessity of private schools.

Economy which curtails the amount of instruction to which our children are entitled,

seems to us to be of the wrong kind, and we suggest that a prosperous city like ours should not be deterred by monetary considerations from giving to our youth its due in the matter of a proper education.

Requesting your kind consideration for the suggestions here presented, we sincerely hope that the proposition referred to will not be adopted by your honorable Board.

JULIUS GOLDZIER,
GEO. N. SCHMIDT,
O. L. WULLWEBER,
F. P. HAND,
LOUIS SCHUTT,
MAX STERN,

Committee.

On motion of Mr. Halle, the remonstrance presented by Mr. Goldzier, was accepted.

After discussion of this question, Mr. Halle moved that the question of instruction in German in the Primary and Grammar Grades be referred to the Committee on School Management, with instructions to report to this Board inside of four weeks the result of their deliberations and conclusions, for action by the Board, and also that said Committee be further instructed to obtain the opinions of the Superintendent and Assistant Superintendents on this question, and that the same be embodied in the report of the Committee to the Board.

During the discussion of this motion, on motion of Mr. Cameron, Mrs. Ella F. Young, Assistant Superintendent, was requested to state to the Board her views on this question.

The question being taken on the adoption of the motion of Mr. Halle to re-commit the question of instruction in German to the Committee on School Management, it was carried.

REPRESENTATION OF LABOR ORGANIZATIONS IN THE MATTER OF SPECIAL STUDIES.

Miss Burt stated that there was present Mr. Thomas Morgan, representing various Labor Associations of the City, who desired to address the Board on the matter of action on the special studies.

On motion of Miss Burt, Mr. Morgan was granted permission to address the Board.

Mr. Morgan took the platform, and stated that, at a meeting of various Labor Associations, held a few evenings previously, the matter of action relating to the discontinuance of instruction in the various special studies was considered, and that a resolution was adopted at said meeting asking that the Board defer action on this matter until these organizations had an opportunity to examine into the question; and stated further, that it was the intention of the various representatives of these associations to obtain from the City Council permission to use the Council chamber in which to discuss this question, and that it would be desirable if some exhibit of the work accomplished by the pupils could be made at that time.

Miss Burt moved that an exhibit, such as was suggested by Mr. Morgan, be prepared, and that the Superintendent be instructed to give Mr. Morgan, and the Committee accompanying him, such information as they might desire with reference to the workings of the special studies.

Mr. Badenoch moved, as an amendment, that the work of two or more schools be placed on exhibition, said exhibit to show the work of every scholar in all of the schools represented.

Mr. Revell moved that it be declared to be the sense of the Board that a Committee of the various labor organizations, together with Mr. Morgan, be invited to visit such schools as they may desire,

and thereby see the work as it is done in the school room.

The motion of Mr. Revell was carried.

At a subsequent period during the meeting, Mr. Duggan called up the question of the exhibit of the work of pupils suggested by Mr. Morgan.

Mr. Badenoch moved that all the specimens of drawing now on exhibition at the rooms of the Board be removed, and that, whenever a display is made for this purpose, the work of an entire school be shown, giving samples of the work of all the pupils in said school, *provided*, this exhibit can be made without expenditure of money. Carried.

Yeas—Mr. Brennan, Miss Burt, Messrs. Badenoch, Rosenthal, Warner, Mrs. Flower, Mr. Duggan and the President—8.

Nays—Messrs. Cameron, Revell and Beebe—3.

Messrs. Boldenweck, Cusack, Halle, Bluthardt, Mallette, Preston and Stanford were absent from the room when this vote was taken.

REDUCE NUMBER OF SITTINGS IN SCHOOL ROOMS.

Mrs. Flower presented the following resolution:

WHEREAS, It is impossible for any one teacher to do justice to more than 45 primary children at one time, as with that number she can only give five minutes a day of individual attention to each pupil;

Therefore Resolved, That all new buildings be arranged to seat that number only, and that all old buildings be re-seated for a like number of pupils so soon as sufficient accommodations can be provided to render the change practicable.

Mr. Boldenweck moved that the resolution be referred to the Committee on Buildings and Grounds.

Mr. Cusack moved, as an amendment, that the resolution be referred to a Joint Committee, consisting of the Committees on Buildings and Grounds and on School Management.

The motion to refer the resolution to a Joint Committee was carried.

CURTAIN INSTRUCTION IN SPECIAL STUDIES, AND ESTABLISH TRAINING CLASS FOR TEACHERS.

By unanimous consent, Mrs. Flower presented the following communication:

To the President and Members of the Board of Education:

This is a critical period in the life of our schools, and a false step may be productive of irreparable injury to those whose interests are involved in the right decision of the questions now before us, and yet who are not in a position to speak for themselves, namely, the children who are being educated and must be educated in the Public Schools, and on their account I ask your careful consideration of the few facts I wish to present, with the conclusions deduced therefrom. I do not feel that my judgment is any better than that of others, and I should hesitate to occupy your time had I not been giving a large amount of time to a careful investigation of these questions during the past two years; and knowing that those best able to judge of the merits and demerits of the present system were the disinterested and able teachers who are in the work, I have taken every means to get the real opinions of large numbers of them, both special and regular teachers. From these opinions, fortified by the results of my own observations, I have come to certain conclusions. These, somewhat modified by the advice of other members of the Committee, were embodied in the report on the Primary Grade work, presented to the Board last June. Since then I have strengthened my position by answers to questions sent to fifty principals, scattered over the city, and embracing the wealthiest as well as the poorest.

districts. These questions were supplementary to information on other points obtained previously.

To each Principal I said, "If you desire, your reply shall be treated as confidential," and many, on these conditions, said what they would have hesitated to say were they to be quoted. These questions were:

1st. Do you consider Drawing, in any grade, as at present taught, too technical, or too difficult for that grade? If so, give particulars.

2nd. Is reading music taught in your first Primary grades?

3rd. Do you consider Physical Culture, as taught, of benefit to Primary children? Could the regular teacher give all the physical training needed for such children?

4th. Would the reduction of the number of specials to one in each branch, for each district, be an advantage or disadvantage to your school work?

The answers to the question "Do you consider Drawing in any grade, as at present taught, too technical or too difficult for that grade?" were, with one or two exceptions, the same, namely, that to accomplish the work in Drawing laid down required more than double the allotted time; that pasting was a nuisance, with no compensating benefit; that clay work, as done in most of the schools, was a complete loss of time; that, though the specials said "Only do what you can of the work laid out," the teacher was always made uncomfortable and to feel that her work had been neglected if she failed to accomplish it.

In answer to the question "Is reading music taught in your first Primary grades?" all reported that reading music was taught in their second Primary grades, and in many cases in the first. Most advised against it.

To the questions "Do you consider Physical Culture, as taught, of benefit to Primary children?" and "Could the regular teacher give all the physical training needed for such children?" the replies were equally unanimous that physical culture was a benefit, but that it was too much supervised; that the regular teacher could do fully as well with the instructions she had, if the school-room were visited once a month.

To the question, "Would the reduction of the number of specials to one in each branch, for each district, be an advantage or disadvantage to your school work?" three-fourths replied "An advantage."

From the information gathered through these letters, coupled with previous investigations and my own observation, I have drawn the following conclusions:

First.—That Drawing, as the foundation of a fine art, should have no place in the common schools, but that drawing, as a factor in education, in the training of eye and hand, and in cultivating the powers of observation and expression, is a necessity, and that our trouble lies in the failure to limit the work to its legitimate sphere. It should be cut one-half, dropping the clay and pasting; also simplifying and limiting the color work and book work.

Two Supervisors in this department, at a proposed expense of \$5,200.00, for the oversight of seven specials, are totally unnecessary.

Second.—Music, as a science, is equally out of place in primary grades, and all teaching of it, as a science, should be taken from the first and second grades, and the number of special teachers reduced.

Third.—Physical Culture should be taught by the regular teacher, with such supervision as can be given by one special teacher to a district. I find, on investigation, that specials have been visiting grammar rooms twice a week, and that no instruction is given by the room teacher. This removes one of the best reasons for the existence of this "fad," namely, the rest to the pupil from this physical training in the midst of his school work. One of the letters, which I shall read when this subject is under discussion, has

given the advantages of this training, if rightly used, much better than I can.

Lastly, I come to what seem to be the crowning faults of the present system, and the cause of the present trouble, which are:

First.—That our system is not a system, but is made up of a number of disconnected departments, each running for its own end, and crowding everything else for its own advantage, instead of being a united system, working altogether for the best development of the whole child, in the time allotted. This can never be obviated till the Superintendent of the district is required to supervise all special as well as all other work, and the Principal is made responsible for everything in his school. When this is done, the school work can be made an organic whole, and each part will be put in its true relation to the other parts, and to the results desired. The specials will then be subordinated to the regular work and made to fulfill their true end of aiding the regular studies, and we shall have a unified system, as other cities have, instead of as now, a conglomeration of disconnected departments.

Second.—We employ a Superintendent and Assistant Superintendents, at large salaries, and we select those who are supposed, from their experience and knowledge, to understand the most about education, and their advice on school matters should be accepted by the Board. They *know*, and we do not; not because we are not equally intelligent, but because they give to the school work their whole attention, and it is for their interest to do the best possible for all the schools, and not for any one. I have heard a member here say that he did not care for the opinion of the Superintendents, they could tell nothing by the time they were in a school. In that, I think he is totally wrong, and it is that spirit which hampers us to-day. If I were to go through a lumber yard, with a man who made the buying and selling of lumber his business, although I might be equally intelligent, he could probably tell at a glance the character and quality of that lumber, of which I would know nothing. So the Superintendents can see, almost the moment of entering a school room, the character of the work being done; and where all is well he need stay but a short time; where it is wrong he or she does stay and essays to put it right, so far as possible; but it can never be entirely right so long as any opinion expressed, or any change recommended by the Superintendents, is met by suspicion in the Board, and allowed to have little or no weight.

Your system of specials is largely the result of outside pressure. The Superintendent is not responsible for it, and cannot be held accountable. Neither Mr. Lane nor any other Superintendent has ever failed to tell me frankly the truth when I have asked his or her opinion. Twice within the year there has been talk of adding more special teachers in Drawing, Music and Physical Culture, and in each case Mr. Lane has replied to my question "Are any more needed?" "No, they are not; we have too many specials now." Making independent departments of Drawing, Music and Physical Culture, was a mistake; they should all be Sub Committees of the Committee on School Management, and their recommendations come to the Board endorsed by that Committee. It is not fair, nor right, to ask the Board to vote on a recommendation of two or three members, often, in these smaller Committees, only one or two, on something we have had no opportunity to investigate, especially when that vote entails the employment of additional teachers, or a large expenditure of money.

The head of a special department, too, is placed in a very uncomfortable position when a member of his Committee suggests that the service would be bettered by one or two more teachers, and asks if he can employ them. And, gentlemen, in his position, you or I would undoubtedly think we could, even if we had not

previously seen any necessity for it; while, if the same Supervisor were brought before a large Committee, and asked the direct question, "Do you actually need any more?" he would tell the truth, and say he did not. And the Superintendent of any district, seeing its work as a whole, would protest against such additions, if you allowed him or her a voice.

In nearly every letter I received, there was some allusion to the necessity of better training for teachers before beginning their school work, if we desired to keep the special studies in their proper place. Those who imagine that a young girl, just because she has studied a few things, and can pass an examination in them, is fitted to teach, are woefully mistaken. A few, a very few, are natural teachers, but the bulk have to learn by long experience how to impart the knowledge they have. Cadetting a few weeks is not enough, they need a teacher's training, and when our young teachers are required to have that, the grade of work in our Primary Schools will be raised at once.

In fully half the letters received occurs this idea in varying forms, in reply to the question about work being too difficult, "not too difficult if you had trained teachers; the trouble largely is, your teachers in the Primary grades need to be taught." Everyone owns that the primary grades should have the best teachers, and yet all beginners have to be placed there, because the discipline of the grammar grades is beyond them. Nine-tenths would break down entirely if placed in the grammar grades to begin with. This being so, we should follow the example of other cities, and have a Teachers' Course of at least one year for our cadets, as recommended by Superintendents and Principals.

Nothing could be more disastrous to our schools than to throw out either Singing, Drawing, or Physical Culture, and such injury would very soon recoil on the heads of those inflicting it. We cannot go back to the country district school of fifty years ago; we should be the laughing-stock of the country. The proper use of these things makes the interest of the school, but it is the abuse of them against which we protest. A steady plodding of five hours at the three R's would be both distasteful and injurious to the children, and the whole public would rise up against it as soon as any attempt was made to put such a course into practice, but these branches must be subordinated to the other work, made to aid it and not override it, as now. I have faith to believe the good sense of my colleagues will prevent any such retrogression, for we should soon find the voice of the newspaper is not always the voice of the people.

Therefore I beg leave to offer the following resolutions, to wit:

Resolved, That the recommendation of the Superintendent, with regard to the establishment of a Training Class for teachers, be referred to the Committee on School Management, with instructions to report four weeks from to-night;

Resolved, That the Committees of Drawing, German and Music hereafter be considered as Sub-Committees of Committee on School Management, the respective Chairmen of said Committees being ex-officio members of that Committee;

Resolved, That the recommendations of the Superintendents, with regard to special studies, as presented herewith, be adopted;

Resolved, That the position of Assistant Supervisor of Drawing be abolished at the close of the present school year;

Resolved, That the number of Special Teachers of Music be reduced to one for each school district;

Resolved, That the number of Teachers of Physical Culture be reduced to seven, one for each school district.

LUCY L. FLOWER.

On motion of Mrs. Flower, the Committee on School Management was instructed to report within four weeks with regard to the establishment of a training class for teachers.

The following are the recommendations of the Superintendents in the matter of Special Studies referred to in the communication presented by Mrs. Flower:

To the Committee on School Management:

In accordance with the action of the Board of Education at the meeting of February 18th, 1893, the Superintendent and his Assistants have had under consideration the Special Studies—Singing, Drawing, Sewing, Physical Culture and German, and make to your Committee the following report and recommendations:

For Singing, a new Course of Study in which the work in that subject is much shortened and simplified.

For Drawing, a new Course of Study from which Clay Modeling and Paper Pasting are omitted, and in which the requirements of the remainder of the present Course are greatly lessened.

For Sewing, the placing of the work of that department outside the regular school hours, thus providing for the dismissal of all pupils not engaged in the work, and thereby removing from the teacher the strain of caring for them during the exercise. It is thought that such a provision will remove difficulties and objections, increase interest in, and promote general efficiency of the work.

For Physical Culture, the employment of the special teachers for instruction of regular teachers in the Primary Grades, and the less frequent visitations of schools by special teachers in the Grammar Grades.

For German, the Course of Study having been always independent of the Superintendent's office, no recommendation is made.

All of which is respectfully submitted,

A. G. LANE,

Superintendent.

The following is the report submitted:

JAMES ROSENTHAL, Esq., *Chairman of Committee on Buildings and Grounds, Board of Education:*

DEAR SIR:—I herewith beg leave to hand you a report of all School Buildings now being completed and of which supervision was given to me. The progress of the work has been somewhat retarded on account of the very inclement weather, where the outside work had to be stopped for several days:

1. *Greenwood Av. and 46th St.* (Since Feb 6, 1893): Slatting of the roof has been completed. Plastering which was done only in the basement, has been completed with the exception of the finishing coat in the basement. Steam-fitters are at work.
2. *George Wm. Curtis School Stanwood Av. and 115th St.* (Since Feb. 6, 1893):

Carpenters have nearly completed framing and putting up of roof. Cornice men are at work now. Steam-fitter has men at work setting up the boilers. Walls are furred and ready for plastering as soon as the roof is completed.

3. *Thorp School Addition, 89th St.* (Since Feb. 7, 1893):

The mason has completed the 1st story of the building and commenced the brick work on the 2nd. The work is progressing favorably.

4. *Ellis Av. and 72nd St.* (Since Feb. 6, 1893):

The outside work on the building has been completed. The outside work is being primed. Metal roof has been put on. The plasterer has the 1st and 2nd story coated.

5. *Brentano School, Linden and Diversey Av.* (Since Feb. 8, 1893):

The slating of the roof has been since finished. The galvanized iron work is mostly finished; part of it has to be made over. The plastering which has been commenced since, is well under way. The plumber is at work putting in the rough work. Steam-fitter is at work setting the boilers. Some of the walls of the boiler house will have to be taken down as soon as the frost is out of the ground, and rebuilt. The sewer work was neglected to be put in at the proper time.

6. *Whitlier School, Lincoln and Moore Sts.* (Since Feb. 7, 1893):

Masons have completed their work to receive cornice. The roof joists of the flat roof have been put on and the roofs are sheathed. The carpenter is at work framing the large roof over the

Assembly Hall. The plumber and gas-fitter has commenced work. The steam-fitters are delayed by the non-delivery of the boilers.

7. *Blanchard Av. and 55th St.* (Since Feb. 9, 1893):

The outside walls have since been completed. The painter has commenced priming. The metal roof has also since been completed. The plasterer is unable to work as water cannot be supplied,—the street mains are about a block from the building.

8. *George Howland School, Spaulding Av. and 16th St.* (Since Feb. 7, 1893):

The mason has completed one full story. The carpenters have laid the 2nd story joists. Contractors are working well.

9. *Clybourn Place and Girard St.* (Since Feb. 8, 1893):

Masons have completed the brick work on the 2nd story. Carpenters are getting ready to lay the 2nd story joists. Work is partly delayed on account of the cut stone, of which part was frozen and has to be removed. Some part of the boiler-house walls has to be re-built after the frost is out of the ground.

10. *Augusta St. and Washienaw Av.* (Since Feb. 9, 1893):

The cut-stone work of the basement has been nearly completed. The joists of the first floor are laid and the rough floor put on. Work has been delayed on account of the slow delivery of the cut stone, which, besides, is partly frozen, and cannot be used.

11. *Kershaw School Addition, 64th and Winter Sts.* (Since Feb. 7th, 1893):

Carpenter has completed the flat roofs and is working on the trusses for the main roof. The mason has almost finished. The work is partly delayed on account of the galvanized iron work. The terra cotta panels are now all placed.

12. *Sulzer St. School Addition, Paulina St.* (Since Feb. 8, 1893):

Mason has completed the brick work of the Assembly Hall. The framing of the roofs has been completed and put in place. The roofs are partly sheathed. The cornice men are at work now. Walls are furred ready for plastering.

14. *Grace and Sheldon Sts.* (Since Feb. 7, 1893):

The brick work of the 1st story has been almost completed. The stone setters are at work on the entrances and are taking out frozen stone.

15. *Leavitt St. and Belle Plaine Av.* (Since Feb. 9, 1893):

The outside of the building has been finished and the openings trimmed. The painter has commenced coating. The inside has been sheathed ready for plastering. Covering of the roof has been delayed.

16. *Louis Nettelhorst School, Evanston Av. and School St.* (Since Feb. 7, 1893):

The mason has finished with the exception of a few small items. The carpenter has completed all the roofs. The sheathing is also finished. The galvanized-iron work is almost completed. Steam-fitter has nearly completed his work. Most of the furring has been done. The window sashes are nearly glazed and ready to be put in, so that the plasterer can commence his work. The lathing has already commenced.

Yours most respectfully,

AUG. FIEDLER,
Architect of the Board.

REPORTS ON STUDY OF GERMAN.

Mr. Halle, member of the Committee on School Management, presented the following report:

To the Board of Education of the City of Chicago:

The Committee on School Management respectfully reports that they have had under consideration, during several sessions of the Committee, the matter referred to them of discontinuing the study of German in the Primary Schools, and are of the opinion that the study of German in the Primary Schools should not be discontinued—

E. G. HALLE,

P. H. DUGGAN,

A. S. TRUDE,

MARY E. BURT,

THOMAS CUSACK,

Committee on School Management.

Mr. Beebe, member of the Committee on School Management, also presented the following minority report:

To the Board of Education of the City of Chicago.

WHEREAS, The study of German was introduced in the Public Schools of Chicago nearly thirty years ago for local reasons, and as such reasons have, during the present time, practically lost all of their force and significance on account of the assimilation of the then newly arrived German element with the native population; and

WHEREAS, The teaching of any one foreign language is fundamentally wrong in principle, and an injustice to other nationalities; and

WHEREAS, The pressing needs of our school system are, first, better trained teachers, which will require a city normal school, and second, a sufficient number of school buildings so that no teacher shall be placed over more than forty scholars; and

WHEREAS, Proceeding on the principle of the greatest good to the greatest number, German (not being a necessity, as is shown by the fact that even its advocates only ask that it be made an optional study) should give way to the more pressing needs of the scholars, and the money expended in a manner that would better secure the ends and aims for which the schools were established; and

WHEREAS, We believe that the arguments for the retention of German as made on educational and utilitarian grounds are not sufficiently cogent to warrant the time and money expended upon the study of German;

Therefore, The undersigned, a minority of the Committee on School Management, would respectfully report and recommend that the study of German be discontinued in the Primary and Grammar Grades of the Public Schools of the city at the close of the present school year.

WM. H. BEEBE.

Mr. Warner requested that under the rules the consideration of the reports of the Committee on School Management be laid over and published, which, being seconded by Mr. Beebe, was so ordered by the President.

Mr. Trude moved the suspension of Section 26 of the Rules of the Board, in reference to laying over reports on the request of two members, in order that the Board might take up the consideration of German at the present time.

The Chair declared the motion of Mr. Trude not in order at the present time, as rule 23 had already operated on the question.

Mr. Trude appealed from the decision of the Chair.

The question being then taken, "Shall the decision of the Chair stand as the judgment of the Board?" The Chair was not sustained.

Yeas—Messrs. Rosenthal, Warner, Revell, Gunderson, Beebe and Stanford—6.

Nays—Miss Burt, Messrs. Boldenweck, Duggan, Cusack, Halle, Bluthardt, Goetz and Trude—8.

The question was then taken on the motion of Mr. Trude to suspend Section 26 of the Rules of the Board, which was lost, failing to receive the vote of a majority of the entire Board, as required by Section 23 of the Rules of the Board.

Yeas—Miss Burt, Messrs. Boldenweck, Duggan, Cusack, Halle, Bluthardt, Goetz and Trude—8.

Nays—Messrs. Rosenthal, Warner, Revell, Gunderson, Beebe and Stanford and the President—7.

RESOLUTIONS ON DEATH OF LOUIS NETTELHORST. FORMER PRESIDENT OF THE BOARD.

Mr. Halle, Chairman of the Special Committee appointed to draft resolutions on the death of Mr. Louis Nettelhorst, former President of the Board, presented the following:

Whereas, This Board has learned, with deep regret, of the demise of Louis Nettelhorst, a former colleague and President for two years;

And Whereas, We recall with gratitude the eminent services rendered by him to the Public Schools of our city during a period of seven years;

Resolved, That the wisdom and ability which he exercised in aid of the labors of our Board, by wise counsel and untiring work, will be held by us in grateful remembrance.

Resolved, That the sudden removal of such a man, in the prime of life, from his family, his colleagues in public service, his friends and fellow citizens, leaves a vacancy and shadow that will be deeply realized by all those with whom he was associated, and will prove a grievous loss to this city and to the entire public.

Resolved, That we will ever remember, as a guidance for ourselves his parting words when retiring from the Presidency of this Board: "I have done my duty as I understood it, and, in the discharge of the same, have tried to be just and fair to every one with whom I came in contact."

Resolved, That, while we deeply sympathize with the afflicted relatives and friends of the deceased, we express an earnest hope that even so great a bereavement may be overcome for their own good;

And Further Resolved, That these resolutions be spread upon the records of this Board, and that two copies of the same be engrossed, one for the widow of the deceased and the other for the school named after him in which it shall be placed in lasting memory of his own personal virtue and the high esteem accorded him by his fellow men.

E. G. HALLE,
F. GOETZ,
THOMAS BRENNAN,
D. R. CAMERON,
T. J. BLUTHARDT.

On motion of Mr. Halle, the resolutions were adopted by a rising vote, and authority was granted to have the two copies thereof engrossed, as recommended in the resolution.

Yeas—Messrs. Brennan, Badenoch, Rosenthal, Warner, Boldenweck, Gunderson, Duggan, Halle, Beebe, Bluthardt, Mallette, Trude, Preston, Stanford and the President—15.

PETITION OF TEACHERS FOR ADVANCE IN SALARY.

On motion of Mr. Warner, Miss Isabella Richman, of the Oakland School, was granted permission to present to the Board a petition of teachers asking for an increase in salary, in view of the increased and increasing cost of living in Chicago.

Miss Richman addressed the Board on the subject matter of the petition, and presented the petition, on which she claimed to have the signatures of seven hundred teachers in the employ of the Board.

On motion of Mr. Boldenweck, the petition was received, and referred to the Committee on School Management.

BATHS AT WASHBURN AND JONES SCHOOL BUILDINGS.

The Clerk presented the following resolution, in behalf of Mrs. Flower, who was absent:

WHEREAS, In several of our schools situated in the crowded districts, notably, the Washburne and the Jones, large numbers of the children have in their homes absolutely no opportunity for any baths, many of them living in tenements where several persons occupy one room;

AND WHEREAS, The condition of such children in many cases is such as to endanger the health and decency of both teachers and other pupils,

Therefore, Resolved, That a bath room, with necessary attendants, be placed in the basements of each of the following named buildings, to wit: the Washburne and Jones School buildings.

On motion of Mr. Boldenweck, the resolution was referred to the Committee on School Management.

TINT WALLS OF SCHOOL BUILDINGS.

The Clerk presented, in behalf of Mr. Revell, the following resolution:

Resolved, In view of the fact that many of the rooms are to be calcimined during the summer vacation, it is the sense of this Board that all recitation rooms, offices and assembly halls that are to be calcimined, so far as practicable, should be done in tinted colors.

On motion of Mr. Halle, the communication was referred to the Committee on Buildings and Grounds.

PRESENTATION OF REPORTS OF STANDING COMMITTEES.

The Chair stated that, in case no objection is made by any member of the Board, it is agreed that the reports of the several Standing Committees be sent to the desk of the Clerk, in the order of the Committees, as provided for in the Order of Business; that they be read by the Clerk, and in case no objection is made during the reading thereof, that a vote be taken, at the conclusion of the reading of the reports of each Committee, on the acceptance of their reports as submitted, and the adoption of the recommendations contained therein, as a whole; if, during the reading of such reports any objection is made to any report or any part of any report presented, such report or reports objected to shall be passed, and the consideration thereof shall be taken up separately.

On motion of Mr. Warner, the bond of Mr. Fiedler was accepted, and ordered to be placed on file.

DIVISION OF TOWNSHIP FUNDS OF TOWNSHIP 37, 14.

Mr. Trude, Chairman of the Committee on Judiciary, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Judiciary respectfully reports that, pursuant to its report adopted by the Board on December 31, 1892 (page 252 of Proceedings), the Superintendent of Schools and the Attorney of the Board were instructed to take the necessary steps for obtaining a division of the Township funds of Township 37, Range 14, Cook County, State of Illinois, so the city of Chicago may obtain the portion of said funds due it by reason of the annexation of a part of said Township to the city.

Your Committee therefore report that the said Superintendent and the Attorney have attended to the duties imposed on them by said report, with the result hereinafter set forth:

That, according to the records contained in the County Clerk's office, the total valuation of the said Township, for the year 1889, was \$2,208,211.00; and the total valuation of said Township outside of Chicago, and the bonds now expired, upon the basis of the valuation of 1889, was \$434,015.00;

That, according to the records in the County Superintendent's office, the total amount of the funds of said Township subject to division is \$12,872.40;

That the valuation of the year 1889 has been agreed upon at the conference held with the Trustees of said Township, as a basis for the division of said funds;

That, upon the basis of the valuation of 1889, the City of Chicago is entitled to the sum of \$10,342.38, and said Township 37 is entitled to the sum of \$2,530.02;

That the foregoing division of said Township funds has been agreed upon by the Board of Trustees of said Township, and has been adopted at one of its regular meetings, and due notice of such adoption has been sent to this Board.

Your Committee therefore recommends that the foregoing division of the funds of said Township be accepted and approved by this Board; and that the matter of the apportionment of the securities belonging to said funds between this Board and the Board of Trustees of said Township, be referred to the Committee on School Fund Property; and that the Committee on School Fund Property be instructed to give prompt attention to the matter, and to report to this Board as soon as the division of

the securities belonging to said Township fund has been completed.

WIDTH OF PACIFIC AVENUE.

Mr. Trude, Chairman of the Committee on Judiciary, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Judiciary respectfully respectfully reports that it has had under consideration the litigation between the City of Chicago and the Chicago, Rock Island & Pacific and the Lake Shore & Michigan Southern railroad companies, relating to a strip of land 22 feet in width, on the west side of Pacific Avenue, between Van Buren and Harrison Streets, in this city; that said strip of land constituted a part of Pacific Avenue and was used by the public and treated by the municipal authorities as a part of said Avenue for a period of about 24 years, from 1866 to 1890; that in the year 1890 said railroad companies sought to take possession of said strip of land and enclose the same with a fence, but were prevented from so doing by the police authorities; that thereupon the said railroad companies filed a bill in the Circuit Court of this County asking for an injunction restraining the city from interfering with their use and occupation of said premises; that said Circuit Court rendered a decree in favor of the complainants and granted the injunction prayed for; that the City of Chicago appealed from said decree, and is now seeking to have the same reversed in the Supreme Court of this State.

Your Committee further reports that it has considered the communication addressed to this Board, whereby the Board is asked to join with the parties owning property on the East side of Pacific Avenue in paying the expenses of said appeal, at a cost not to exceed \$3.00 per front foot; that 299.09 feet of the frontage on the east side of Pacific Avenue is School Fund property, the value of which will be very materially lessened if said Railroad Companies succeed in securing permanent possession of said strip of 22 feet on the west side of said Pacific Avenue, as said Avenue will then be but 40 feet in width, 8 feet of which is used for a sidewalk.

Your Committee therefore recommends that this Board join with said property owners in paying the expense of said appeal, at a cost not to exceed \$3.00 per front for all of said School Fund Property on said Avenue, provided said property owners and the Attorneys having the case in charge shall stipulate in a satisfactory manner that said appeal will be prosecuted diligently, and that the total cost to this Board, for all of said litigation, shall not exceed the sum of \$897.00, being \$3.00 per foot for the entire frontage of the School Fund Property on said Pacific Avenue.

A. S. TRUDE,
JAMES ROSENTHAL,
Committee on Judiciary.

On motion of Mr. Trude, it was voted that the Board join with the other property-owners interested, in paying the expenses of said appeal, at a cost not exceed \$3.00 per front foot for all of the property on said Avenue belonging to the School Fund.

Re-Award of Contract for Gray Cardboard.

A report of the Committee, to which was referred, at the last meeting of the Board, a communication from the Central School Supply House, in the matter of the return of the deposit submitted with their proposal for gray cardboard, stating that they had had the same under consideration, and that, in view of the fact that the specifications as drawn by the Drawing Department were inaccurate, they having specified "8,000 sheets of 3 ply gray cardboard, as per sample,"

whereas the sample furnished by the Department was 10 ply cardboard, the specifications were so misleading as to readily account for the error made by the Central School Supply House in submitting their proposal:

The Committee therefore recommended that the deposit of the Central School Supply House be returned, and their contract be cancelled, and that the contract be re-awarded to the next higher bidder, the J. W. Butler Paper Co., for the sum of \$396.00.

No objection having been made to any of the recommendations contained in the several reports presented, on motion of Mr. Badenoch, the reports were received, and the recommendations contained therein were adopted, such adoption being declared to have been the action of the Board on each individual recommendation.

**RESCIND ACTION IN MATTER OF APPROPRIATION FOR
 PAYMENT OF EXPENSES INCURRED BY TEAMSTER
 BY REASON OF INJURIES RECEIVED AT
 WASHBURN SCHOOL BUILDING.**

Mr. Rosenthal presented the following resolution, asking that the action of the Board, taken December 21, 1892, in the matter of the appropriation of \$600, to be expended in paying for expenses incurred by Thomas Burns on account of injuries received while delivering coal at the Washburne School building, be rescinded:

WHEREAS, on December 21, 1892, the Joint Committee consisting of the Committee on Janitors and Supplies and on Judiciary, presented the following report to this Board:

To the Board of Education of the City of Chicago:

Your Joint Committee, consisting of the Committee on Janitors and Supplies and the Committee on Judiciary, respectfully reports that it has had under consideration the case of Thomas Burns, a teamster who was thrown from his wagon and seriously injured while driving a load of coal from the Washburne School lot, that the circumstances under which said accident occurred are fully set forth in the report of Frank L. Burdick, Inspector, which said report is hereto attached; and that after a full investigation of the matter, your Joint Committee is of the opinion that the accident was not due to the negligence of either Thomas Burns or the employees of this Board.

Your Committee further reports that the injury sustained by the said Thomas Burns is of a serious character, and will prevent said Thomas Burns from pursuing his usual employment for at least six months, and may result in his permanent disability; that the said Thomas Burns and his family are in indigent circumstances, and without means for providing proper medical attendance and care to enable him to recover from his said injury.

Your Committee therefore recommends that the sum of six hundred dollars be appropriated by this Board, to be expended in paying for the expense incurred by the said Thomas Burns on account of his said injury, and in compensating him for his loss of wages for the time during which he is incapacitated; that said sum of six hundred dollars be paid out at such times and to such persons as the Committee on Janitors and Supplies may direct, but that no part of said sum be expended until the said Thomas Burns or his legal representatives shall have executed a proper written waiver or release of all claims

against this Board and the City of Chicago on account of the said accident.

J. J. BADENOCH,
 S. T. GUNDERSON,
 T. J. BLUTHARDT,
 Com. on Janitor's Supplies.
 A. S. TRUDE,
 Committee on Judiciary.

AND WHEREAS said report was at said meeting adopted, and whereas, on the request of the President of the Board the opinion of the Attorney of the Board was asked as to the legality of said proceedings, and the Attorney of the Board replied as follows:

DECEMBER 29, 1892.

HON. JOHN McLAREN,

President Board of Education:

DEAR SIR: Your communication of December 27, 1892, received. Also a copy of the report of the Joint Committee on Janitors and Supplies and Judiciary, adopted at the last meeting of the Board of Education, whereby an expenditure of six hundred dollars was authorized for the benefit of Thomas Burns, who was injured in the manner set forth in said report.

In reply to your inquiry as to whether or not such an expenditure is authorized by the law governing the Board of Education, I beg leave to say that in my opinion such an expenditure is not so authorized. In my former opinions furnished in relation to this matter, I have uniformly stated that the Board of Education could not be made liable in a civil action for damages for neglect of duty. I consider that this proposition has been fully established by the decisions of the courts in this State and in other States. The powers of the Board of Education are expressly defined by statute, and the power to expend money for the purpose specified in the report of the Joint Committee is not included among those enumerated in the law governing the acts of the Board of Education.

Very respectfully yours,
 DONALD L. MORRILL.

AND WHEREAS, No action has been taken by the Board of Education, in pursuance of the said order of the Board, on account of the illegality thereof, and a voucher for the payment of the said sum of \$600 to Thomas Burns has not been signed nor demanded.

Therefore Be it Resolved. That the action of said Board, taken on the 21st day of December, 1892, upon the above recommendation, be, and the same is hereby rescinded.

On motion of Mr. Trude, it was ordered that the resolution be published, and that the consideration thereof be deferred.

Mr. Halle moved that the Board do now adjourn. The motion to adjourn was lost.
Yeas — Messrs. Brennan, Boldenweck, Duggan, Halle, Bluthardt, Trude and the President—7.

Committee on School Management.

REPORT OF THE COMMITTEE ON SCHOOL MANAGEMENT ON SPECIAL STUDIES.

Mr. Revell, member of the Committee on School Management, presented the following report of the Committee on the modifications of the Course of Study so far as relates to Special Studies.

On motion of Mrs. Flower, it was ordered that the report be published, and that the consideration thereof be laid over to a future meeting.

To the Board of Education of the City of Chicago:

The Committee on School Management, to which was referred the report of the Committee on School Management of date January 18th, last (page 285 of Proceedings, C. S.), recommending that "instruction in clay-modelling be discontinued in the Chicago Public Schools at the close of the present school year," with the amendment offered by Mr. Badenoch at the meeting of February 15th last (page 319 of Proceedings, C. S.), providing that "instruction in German, Physical Culture, Sewing, Drawing and Singing, be discontinued at the close of the school year," would now beg leave to report that they have had under consideration the several subjects referred to them; that they have carefully considered the arguments for and against the discontinuance of these several special studies, as set forth in the following resolutions, petitions, communications and protests, to wit:

The report of the Special Committee on the modification of the course of instruction in the Primary Schools (pages 426-427 of Proceedings of June 22, 1892);

The motion of Mr. Brennan, made at the meeting of February 15th, last (page 319 of Proceedings, C. S.), "that in place of the special studies now in the several schools, Manual Training be introduced into all the schools, and that one room be set apart in each building for this purpose";

The motion of Mr. Roseuthal, made at the meeting of February 23d last (page 329 of Proceedings, C. S.), referring the consideration of all other questions pertaining to educational matters in the High, Grammar and Primary Schools;

The petition of the German-American organizations that met at North Turner Hall, on February 21st, last;

The resolutions offered by Mr. Revell, at the meeting of March 1st, last (page 335 of Proceedings, C. S.), as follows:

"Resolved, That the teaching of Sewing be discontinued;

"That the teaching of technical music, except in the seventh and eighth grades and the High Schools, be discontinued;

"That the teaching of Sloyd, Paper Cutting, Pasting, Clay-Modeling and Color Work, be discontinued;

"That instruction in Physical Culture be discontinued, except so far as it can be taught by

"the regular teacher, and that, for this purpose, four Physical Culture instructors be retained or employed, whose duty it will be to instruct teachers. Time to be devoted to Physical Culture exercises to be placed at the disposal of Principals of Schools";

The communication of Mrs. Flower (page 335 of Proceedings, C. S.);

The petition of German citizens; the petition of the Women of Chicago; the communication from Machinists' Union, No. 16; the communication from the Central Labor Union; the protest from the Woman's Alliance and various other societies represented by Mrs. Corinne Brown; the protest from members of the Unity Club, of Chicago; and the protest from members of the congregation of All Souls' Church, of Chicago, all bearing on the subject of special studies in the Chicago Public Schools, and all of which were presented at the meeting of March 20th, 1893.

The Committee have also asked for and received the opinion and judgment of the Superintendent and the Assistant Superintendents of Schools, as well as the opinion and judgment of a large number of our school Principals, teachers and other educators; they have also considered the comments both of the public press and educational magazines, and with this information before them have come to the conclusion that all of these several special studies have an educational value, and should not be completely eliminated from our present school course. They find, upon a full examination of the subject, that in the present daily program of school exercises, there is too much time given to these special studies, oftentimes to the detriment of more important ones. Your Committee, are, however, of the opinion that these studies should be continued, under certain restrictions, and with this end in view would beg leave to offer the following amendments to the report and the amendment referred to them, viz:

In the matter of German, there is already pending before the Board a report, from this Committee, on the study of German in the Primary Schools.

Insert, in the original report, after the word "modeling," the words "except in the Deaf-Mute Day Schools and Kindergartens."

Strike out the words "Physical Culture," and insert: "That the study of Physical Culture be retained in both the Primary and Grammar Schools, so far as it will afford relaxation to the pupils, but that the teaching in the schools be done by the grade teachers, under the direction of the general Superintendent of Schools and the Assistant Superintendent of each school district; that, with the view of obtaining a uniform system of such study in our schools, Special Teachers of Physical Culture be of not over one for each school district be employed by the Board, who shall instruct the grade teachers; also a Supervisor of Physical Culture; all of this instruction, however, to be under the direction and supervision of the Committee on School Management and the general Superintendent of Schools."

Strike out the word "Drawing," and insert: "Cut out all work in Drawing in the first grade; clay modeling in all the grades; all color work above the fourth grade; all pasting and making in all grades; reduce the time now given to this work in the second and third grades; and reduce the work in the drawing books in each grade, thus giving more time for the application of drawing to the other school studies."

The Committee further recommends that, in their judgment, there should be but one Supervisor of Drawing, and one Special Teacher of Drawing for each school district.

Strike out the word "Singing," and insert: "That Singing be made a uniform graded course from the first to the twelfth grade; that all technical work in Singing be eliminated from

"the first and second grades, so far as practicable; that the instruction in this branch in the High Schools extend no further than for the purpose of preparing teachers for the public schools; that one Supervisor and Special Teachers not to exceed one for each school district be employed to give instruction in Singing in the first five grades; and that one Supervisor and four Special Teachers be employed to give instruction in Singing from the sixth to the twelfth grades, inclusive." Strike out the word "Sewing," and insert: "That the study of Sewing, in its present form, be discontinued at the close of the present school year."

The Committee recognizes the value of Manual Training as a means of education, and recommends that it be continued for the present in the Lake View No. 2, Foster, Jones and Tilden Schools.

The Committee further recommends the adoption of the resolution offered by Mrs. Flower, at the meeting of March 1st, 1893 (page 337 of Proceedings), amended so as to read: "That the Committees on Drawing, Music, German, Physical Culture and High Schools be hereafter considered as Sub-Committees of the Committee on School Management, the respective chairmen of said committees to be members of the Committee on School Management."

Your Committee would further recommend that the Rules of the Board be so amended as to specifically direct that all Supervisors, Special Teachers, Teachers in High Schools, and all other employees in the educational department of the Board, shall be directly under the supervision and direction of the Superintendent of Schools;

And further that, when any Special Teacher visits any of the public schools in the line of duty he or she shall for the time being be as much under the control and direction of the Principal of said school as any of the regular teachers of said school.

All of which is respectfully submitted.

On motion of Mr. Rosenthal, it was ordered that the communication be published in the proceedings of the Board.

The following is the communication presented:

To the Honorable Board of Education of the City of Chicago:

GENTLEMEN:—I herewith submit the following report for District No. 4, in Rogers Park, Cook County, Illinois.

We have two school buildings, one called the "Grand Avenue School," situated on the corner of Grand Avenue and Greenleaf Avenue, on Lots 7, 8, 9 and 10, Block 28, making 220 feet front, by 175 feet deep; value of ground, \$8,800; building, \$10,000, making \$18,800 for grounds and building. The other is the "Grove Street School," situated on the corner of Lunt Avenue and Grove Street. The ground is described as Lots 11, 12, 13 and 14, in Block 23, being 200 feet front, by 172 feet deep; value of ground, \$7,000; building, \$6,000; making \$13,000 for the ground and building, or \$31,800 for both school buildings and ground.

I herewith hand you two insurance policies on the Grand Avenue School building and furniture, amounting to \$10,000; also two on the Grove St. building and furniture, amounting to \$5,000.

Also two contracts for a stone sidewalk in front and on the west side of the Grove Street School building property. The sidewalk is to be 5 ft. 4 in. in width, at \$1.00 per lineal foot, which is an extremely low figure, on account of the many thousands of feet I have contracted for on my different subdivisions with the same company, the Cleveland Stone Company, who are the parties that lay all the sidewalks for Edgewater and many other subdivisions. The contracts are made with James C. Daly, who represents the Company in Chicago. The School Board decided, August 16, 1892, to have a stone walk on the west side of the Grove Street School, but labor was so scarce that it seemed impossible to get anyone to do the grading for it until it got so late that the winter weather closed down upon us, and the weather has been so unfavorable up to this time, which is the reason for its not having been completed before this.

I herewith hand you a list of the salaries that that are now being paid to the teachers for this year: also a list showing the salaries that we would pay, or intended to pay, if we had remained in power for the next year, commencing September, 1893.

The schools have a great abundance of everything that they need in the way of supplies during this year, as the Committee on Supplies have been very liberal to grant nearly everything that the teachers wanted or thought they wanted.

Very truly yours,

F. H. DOLAND, *President.*

P. S.—The Township Board of Education holds the deeds of the real estate belonging to the school property. The Township Treasurer has all the figures showing the amount of our estimated expenditures, and the balance between what we have drawn and what we are entitled to.

F. H. DOLAND, *President.*

W. R. BOND, *Clerk.*

Clay-Modeling.—Discontinue instruction in Clay-Modeling in the Chicago Public Schools at the close of the present school year, except in the Deaf Mute Day Schools and the Kindergartens.

Physical Culture.—That the study of Physical Culture be retained in both the Primary and Grammar Schools, so far as it will afford relaxation to the pupils, but that the teaching in the schools be done by the grade teachers, under the direction of the general Superintendent of Schools and the Assistant Superintendent of each school district; that, with the view of obtaining a uniform

system of such study in our schools, Special Teachers of Physical Culture of not over one for each school district be employed by the Board, who shall instruct the grade teachers; also a Supervisor of Physical Culture; all of this instruction, however, to be under the direction and supervision of the Committee on School Management and the general Superintendent of Schools.

Drawing.—Cut out all work in drawing in the first grade; clay-modeling in all the grades; all color work above the fourth grade; all pasting and making in all grades; reduce the time now given to this work in the second and third grades; and reduce the work in the drawing books in each grade, thus giving more time for the application of drawing to the other school studies.

Also that there be but one Supervisor of Drawing, and one Special Teacher of Drawing for each school district.

Singing.—That Singing be made a uniform graded course from the first to the twelfth grade; that all technical work in Singing be eliminated from the first and second grades, so far as practicable; that the instruction in this branch in the High Schools extend no further than for the purpose of preparing teachers for the Public Schools; that one Supervisor and Special Teachers not to exceed one for each school district be employed to give instruction in Singing in the first five grades; and that one Supervisor and four Special Teachers be employed to give instruction in Singing from the sixth to the twelfth grades, inclusive.

Sewing.—That the study of Sewing, in its present form, be discontinued at the close of the present school year.

That the Committees on Drawing, Music, German and Physical Culture be hereafter considered as Sub-Committees of the Committee on School Management, the respective Chairmen of said Committees to be members of the Committee on School Management.

That all Supervisors, Special Teachers, Teachers in High Schools, and all other employees in the educational department of the Board, shall be directly under the supervision and direction of the Superintendent of Schools.

That when any Special Teacher visits any of the public schools in the line of duty he or she shall, for the time being, be as much under the control and direction of the Principal of the school as any of the regular teachers of such school.

BOARD OF EDUCATION.

REGULAR MEETING.

OFFICIAL REPORT.

Chicago, May 24, 1893.

The President, Mr. John McLaren, took the chair, and the meeting being called to order, there were then

Present—Messrs. Brenan, Cameron, Badenoch, Rosenthal, Warner, Mrs. Flower, Messrs. Revell, Boldenweck, Gunderson, Duggan, Cusack, Halle, Beebe, Bluthardt, Mallette, Stanford, Keane and the President.

Absent—Messrs. Goetz Trude and Preston.

AMENDMENTS AND APPROVAL OF RECORDS OF PROCEEDINGS.

The Clerk called attention to the following inaccuracies in the record of the regular meeting held April 26th, to wit:

On page 422, under "Physical Culture Exercises in connection with the World's Columbian Exposition," the action of the Board on the matter is not definitely stated. There should be added the words "*were adopted*," so that the action of the Board on this matter shall read "*On motion of Mr. Boldenweck, the recommendations of the Committee were adopted.*"

On page 425, under "Award of Contracts for Erection of an Addition to the Andersen School building," the amount of the contract awarded to Andrew Corcoran & Son, for lathing and plastering, should read "\$1,593 00," instead of "\$593.00"

On page 427 of the same meeting, in the matter

of award of contracts for caulking windows, the contract price for caulking the windows of the Duncan Avenue School building, to George Jackson, should read "\$85.00," instead of "\$80 00."

On page 434 of the proceedings of the same meeting, in the matter of advance in wages of carpenters and painters in the employ of the Board, the increase in wages of carpenters should read, "*5 cents per hour*," instead of "*5 cents per day*."

Also, in the record of the meeting of May 10th, page 442, the salary of Minna Kambli should be stated as "\$1,100.00," instead of "\$1,000.00," \$1,100.00 being the salary which she is at present receiving, and also being the salary for the eighth year of the second group of teachers of French, German and Drawing, as stated in the report of grouping.

On motion of Mr. Rosenthal, it was ordered that the corrections stated by the Clerk be made in the records of the proceedings of the meetings named.

Yeas—Messrs. Brenan, Cameron, Badenoch, Rosenthal, Warner, Mrs. Flower, Messrs. Revell, Boldenweck, Gunderson, Duggan, Cusack, Halle, Beebe, Bluthardt, Mallette, Stanford, Keane and the President—18.

COMMUNICATIONS FROM THE PRESIDENT OF THE FORMER BOARD OF EDUCATION OF THE VILLAGE OF ROGERS PARK.

The Clerk presented the following communications from F. H. Doland, former President of the Board of Education of the Village of Rogers Park, to wit:

To the Board of Education of Chicago:

GENTLEMEN: I wish to call your attention to the contracts for stone sidewalk in front of and on the west side of school property known as Grove Street or West Side School house property. You will notice that my part of the contract with this party was to bring the ground for sidewalk to the required or established grade. I have done a good deal of figuring with several parties who are in that line of business, and have some figures that might be valuable to your department that has this particular work in charge, and I would be pleased to render you any assistance in my power in this direction.

The present time is a very good time to have the grading for sidewalk and also some filling in the lot done, on account of the improvement that is now going in on Lunt Avenue, which is the street in front of the property in question. There is a great deal surplus material in this street, and the parties who have the contract for grading it will draw the material for grading the sidewalk and filling the lot for just what the labor of moving the material will cost them.

There are some six or eight trees on the west side of the school grounds that must be grubbed out by the roots, on account of their being on the line of the sidewalk.

Very truly yours,

F. H. DOLAND,
President.

To the Board of Education of Chicago:

GENTLEMEN: At regular meeting, April 18, 1893, the following resolution was introduced by Mr. Morris:

WHEREAS, This Board had intended making the following repairs and improvements during the summer vacation, therefore,

Be it Resolved, That we petition the City Board of Education to make said improvements and repairs, viz:

Putting in steam heat in West Side or Grove Avenue School building.

Filling lot to grade, West Side or Grove Avenue School grounds.

Hardwood floors in remaining rooms, or those rooms which we did not have an appropriation sufficient to complete the work of last year's hardwood flooring in East Side or Grand Avenue School building.

Store-room in basement of East Side or Grand Avenue School building.

Putting both buildings in thorough repair.

Yours respectfully,

F. H. DOLAND,
President.

These communications were referred to the Committee on Buildings and Grounds.

COMPENSATION TO THOMAS BURNS FOR INJURIES RECEIVED AT WASHBURNE SCHOOL BUILDING WHILE DELIVERING COAL.

Under unfinished business, Mr. Rosenthal called up the consideration of the resolution presented by him at the meeting of April 12th (page 418 of Proceedings), in reference to an appropriation of \$600 to be expended in paying for expenses incurred by Thomas Burns, on account of injuries received while delivering coal at the Washburne School building, and for loss of time, which reads as follows:

WHEREAS, On December 21, 1892, the Joint Committee consisting of the Committees on Janitors and Supplies and on Judiciary, presented the following report to this Board:

To the Board of Education of the City of Chicago:
Your Joint Committee, consisting of the Committee on Janitors and Supplies and the Com-

mittee on Judiciary, respectfully reports that it has had under consideration the case of Thomas Burns, a teamster, who was thrown from his wagon and seriously injured while driving a load of coal from the Washburne School lot, that the circumstances under which said accident occurred are fully set forth in the report of Frank L. Burdick, Inspector, which said report is hereto attached; and that after a full investigation of the matter, your Joint Committee is of the opinion that the accident was not due to the negligence of either Thomas Burns or the employees of this Board.

Your Committee further reports that the injury sustained by the said Thomas Burns is of a serious character, and will prevent said Thomas Burns from pursuing his usual employment for at least six months, and may result in his permanent disability; that the said Thomas Burns and his family are in indigent circumstances, and without means for providing proper medical attendance and care to enable him to recover from his said injury.

Your Committee therefore recommends that the sum of six hundred dollars be appropriated by this Board, to be expended in paying for the expense incurred by the said Thomas Burns on account of his said injury, and in compensating him for his loss of wages for the time during which he is incapacitated; that said sum of six hundred dollars be paid out at such times and to such persons as the Committee on Janitors and Supplies may direct, but that no part of said sum be expended until the said Thomas Burns or his legal representatives shall have executed a proper written waiver or release of all claims against this Board and the City of Chicago on account of the said accident.

J. J. BADENCOCH,
S. T. GUNDERSON,
T. J. BLUTHARDT,
Com. on Janitor's Supplies.

A. S. TRUDE,
Committee on Judiciary.

AND WHEREAS said report was at said meeting adopted, and whereas, on the request of the President of the Board the opinion of the Attorney of the Board was asked as to the legality of said proceedings, and the Attorney of the Board replied as follows:

DECEMBER 29, 1892.

HON. JOHN McLAREN:

President Board of Education.

DEAR SIR: Your communication of December 27, 1892, received. Also a copy of the report of the Joint Committee on Janitors and Supplies and Judiciary, adopted at the last meeting of the Board of Education, whereby an expenditure of six hundred dollars was authorized for the benefit of Thomas Burns, who was injured in the manner set forth in said report.

In reply to your inquiry as to whether or not such an expenditure is authorized by the law governing the Board of Education, I beg leave to say that in my opinion such an expenditure is not so authorized. In my former opinions furnished in relation to this matter, I have uniformly stated that the Board of Education could not be made liable in a civil action for damages for neglect of duty. I consider that this proposition has been fully established by the decisions of the Courts in this State and in other States. The powers of the Board of Education are expressly defined by statute, and the power to expend money for the purpose specified in the report of the Joint Committee is not included among those enumerated in the law governing the acts of the Board of Education.

Very respectfully yours,

DONALD L. MORRILL.

AND WHEREAS, No action has been taken by the Board of Education, in pursuance of the said order of the Board, on account of the illegality thereof, and a voucher for the payment of

the said sum of \$600 to Thomas Burns has not been signed nor demanded.

Therefore Be it Resolved, That the action of said Board, taken on the 21st day of December, 1892, upon the above recommendation, be, and the same is hereby rescinded.

Mr. Rosenthal moved that the resolution presented by him, recommending the rescindment of the action of the Board taken at the meeting of December 21, 1892, be adopted.

The question being taken on rescinding the action of the Board, taken on this matter at the meeting of December 21, 1892, it was not carried.

The question being taken on the motion of Mr. Revell as amended providing that calcimining be done in tinted colors, to be designated by the Architect, and also that the Architect be instructed to suggest colors for the outside of buildings, it was adopted.

REPORT ON TEXT BOOKS FOR GRAMMAR AND PRIMARY GRADES.

Mr. Brennan, Chairman of the Committee on School Management, presented the following report:

To the Board of Education of the City of Chicago:

The Committee on School Management would ask further time to report on the matter of text books in Music and Drawing for use in the Grammar and Primary Grades during the ensuing school year.

They recommend that no change be made in the other text books in use in the Grammar and Primary Schools, except in the matter of the Wells' Shorter Course in Grammar and the Model Elementary Arithmetic.

In the matter of the text book in Grammar, they recommend the adoption of Maxwell's Advanced Lessons in English Grammar, to take the place of Wells' Shorter Course in Grammar, at a cost to pupils, at convenient distances from the several school buildings, of fifty-six cents (56c.) per copy, the publishers to allow pupils now supplied with the Wells' Shorter Course thirty cents per copy in exchange for the new book.

The Committee would ask further time to report on the matter of the Model Arithmetic.

REPORT OF COMMITTEE ON MUSIC ON TEXT BOOKS FOR THE ENSUING YEAR.

Mr. Mallette, Chairman of the Committee on Music, presented the following report:

To the Board of Education of the City of Chicago:

Your Committee on Music would respectfully report that, for the purpose of carrying out the order of the Board adopted at its meeting held May 10th last in relation to Music in our Schools, they have thoroughly investigated the subject, and to this end the President of the Board sent the following letter to the Superintendents of Schools and Supervisors of Music in all the leading cities of the country:

Chicago, May 15, 1893.

DEAR SIR:—

The Board of Education has recently passed an order that "singing be made a uniform, graded course from the first to the twelfth grade." Un-

der our school system, the first four grades comprise the primary schools, the next four the grammar schools, and the last four the high schools.

It is the purpose of the Board to employ as few special teachers of music as possible,—in time none, save one or more directors or supervisors. It will therefore be necessary that our regular grade teachers do the drill work in music in the class rooms, the same as in each other branch taught in the schools.

Desiring to profit, in so far as may be, by the experience of other cities in which music is taught as a regular graded branch of instruction, I shall esteem it a great favor if you will kindly advise me at your early convenience as to what system of instruction is in use in the schools of your city, whether you have ever had experience with any other, and what system is in your judgment best adapted to get satisfactory results, and still carry out the order of our Board.

Yours very truly,

JOHN McLAREN,
President,

They have also consulted with our Supervisors of Music, and with the information before them, are strongly of the opinion that some system of Text Books in Singing, in addition to the ones now in use in our schools, should be introduced into our school course at the beginning of the next School Year.

Your Committee would further report that they have carefully considered the various systems of books submitted to them in answer to advertisements and requests, and while each system has its peculiar merits and advantages, still the general opinions of all the various educators referred to and our own Supervisors, which are attached hereto and made a part of this report, are decidedly in favor of the Normal Music Course as the one that will adapt itself the most readily to the policy the Board has adopted.

The cost of the several books in this Course to the pupils will be as follows:

First Reader	\$0 32
Second Reader, Part 1.....	36
Second Reader, Part 2.....	36

Or a total of..... \$1 04

Making an average of 17½ cents per year to each pupil for six years' work, and if the High School book is included, the cost would be 84 cents more.

Your Committee would therefore recommend that the Normal Music Course be adopted as the books for Singing in our schools. Your Committee would further recommend that if the books of the Normal Music Course be adopted, they be introduced into the school rooms as follows:

For Grade 3: First Reader, Part 1.

For Grade 4 and present classes in 4th grade: Take all of the First Reader.

For Grade 5 and Lower 6th: Second Reader, Part 1.

For Highest 6th, 7th and 8th Grades: Second Reader, Part 2.

For High Schools: Book 4 of the Cecilian Series.

The songs in books printed by the Board can always be used as supplementary songs.

J. P. MALLETTE,

M. J. KEANE,

J. J. BADENOCH,

Committee on Music.

During the consideration of this report, Mr. Badenoch moved that, when the board adjourn this evening, it take a recess for one week, or till Wednesday, June 28th, at 8 p. m.

Carried.

Mr. Halle moved that the report of the Committee on Music be referred to the Committee on School Management.

Mr. Badenoch moved as an amendment that the report be published, that action thereon be deferred, and that the consideration of the report be made a special order at the continuation of the present meeting to be held Wednesday, June 23th, 1893.

The amendment of Mr. Badenoch was carried.

Also stating that authority was granted at a previous meeting to have a new iron column placed in the Clybourn Place and Girard Street School building, at a cost not to exceed \$75.00; that they had found, however, upon obtaining proposals, that the cost of this work would be \$88.75, and they therefore recommended that the additional sum be allowed.
